About Us

Garuu Technology aims to be a reputed manufacturer founded in the 2024 is offering a wide range of products including Ultrasonic Humidifier Machines and Mist Maker Plates. Our focus is to fulfill all the required expectations from customers through high-quality products and attain their optimal satisfaction. Our company also duly follows ethical business practices maintaining complete transparency in every transaction, with strong bonding towards its clients. Our success is owed to Mr. Vikram, whose strong support and direction has been necessary for our quick growth inside the marketplace. We are also open to suggestions of customers that enable us to improvise and serve them more efficiently.

Our company is dedicated to producing high-quality Mist Maker Plates and Ultrasonic Humidifier Machines at our state-of-the-art facility in India. We specialize in ultrasonic technology, which allows for efficient humidification and adjustable mist output, catering to various industrial applications. Our infrastructure supports a huge production capacity, ensuring timely delivery and superior quality control. To manage our infrastructure, our professionals include skilled engineers, designers, and customer care representatives who work hard to deliver quality products and services. Further, we are focused on building long-term relationships with our customers based on trust, transparency, and shared success and our team helps us in the same.
