

5.5 Feet Semi Champion Rotavator

The 5.5 Feet Semi Champion Rotavator is a durable and high-performance agricultural implement designed for effective soil preparation and cultivation. Equipped with 36 heavy-duty blades, this rotavator ensures efficient soil pulverization, weed removal, and proper mixing of crop residue into the soil. Its rigid structure and paint-coated orange finish provide excellent durability and resistance against corrosion during long-term farming operations. This tractor-mounted rotavator is suitable for various agricultural applications including seedbed preparation, land leveling, and farming operations in different soil conditions. The machine is manufactured using high-quality materials for reliable performance and low maintenance. Its strong body construction and smooth operation help farmers improve productivity while reducing manual labor and operational time.

Specification	Details
Product Name	5.5 Feet Semi Champion Rotavator
Category	Tractor Parts
Private Category	Tractor Rotavator
Size	36 Blades
Color	Orange Paint Coated
Hardness	Rigid
Use	Agriculture
Finishing	Paint Coated
Warranty	Yes

Supply Ability	10 Per Month
Delivery Time	30 Days
