Anti Larva Malaria Oil

(Oil-Based)

Product Description

Anti Larva Malaria Oil (oil-based) is a highly effective larvicide used to control and prevent mosquito breeding. It works by forming a thin oil film on the surface of stagnant water, which blocks the oxygen supply and prevents mosquito larvae from **breathing, leading to their suffocation and death.**

This product is suitable for application in **drains, ditches, ponds, gutters, water tanks, and stagnant water bodies.** Regular use helps in the prevention of **malaria, dengue, chikungunya,** and other mosquito-borne diseases.
