SPECIAL GRADE(3P) NAUSHADAR

FOOD GRADE (3F) NAUSHADAR

REGULAR GRADE NAUSHADAR

About Us

Our company is into the business of offering various inorganic chemicals for over 100 years. Initially, we produced Potassium Nitrate by virtue of natural mining from soil that would have a rich content of the chemical in them. With the passage of time and innovations, we have developed a wide range of chemicals that meet the requirements of agricultural and pharmaceutical sectors. We produce the chemicals with an unique technique, which ascertains their utmost purity along with minimum cost recurring.

Heritage Biotech Pvt. Ltd. is manufacturing, supplying and exporting Ammonium Chloride, Potassium Nitrate, Potassium Sulphate, Sodium Sulphate, Zinc Sulphate Monohydrate, Zinc Sulphate Heptahydrate, And Zinc Oxide. The chemicals are formulated with the assistance of a team of experts who follow strict quality and time guidelines.

They assist us in offering customer specified services. With their efforts, we have progressed from strength to strength in the global markets. All our organic chemicals are exported to Thailand, Malaysia, Australia, Canada. Bangladesh, and Sri Lanka.
