

AUTOMATIC DUST COLLECTOR

15HP Pulse Jet Dust Collector, 1HP Electric Dry Scrubber, 250HP Air Scrubber, 3 Phase Combustion Blower, 3000RPM Ms Blower, 380 V Portable Belt Conveyor, 380V Industrial Rotary Airlock Valve, 420V Fly Ash Collector, Air Pollution Control Equipment, Automatic Centrifugal Blower, Automatic Dust Collector, Automatic Pulse Jet Dust Collector, Automatic Screw Conveyor, Belt Driven Centrifugal Blower, Dust Control Booth, etc.

PULSE JET DUST COLLECTOR SYSTEM

INDUSTRIAL MULTI CYCLONE DUST COLLECTOR

PORTABLE DUST COLLECTOR

About Us

Mesotech Engineering Systems is committed to the delivery of optimal innovations in dust control as well as air conditions. We operate as a reliable manufacturer & supplier of air handling products that provide maximum performance to enhance air quality and safety at workplaces. Our company has top-notch quality control and an emphasis on professional development thus providing solutions that are suited to the industry's unique needs in addition to meeting environmental degradation control. Our product line includes Portable Dust Collector, Dust control booth, Reverse air bag house, Dust extraction systems, Automatic centrifugal blower, Ms Boiler fan, etc. These products are highly developed filtration systems, durable, and come with energy-efficient technology to ensure that they are fully dependable. Their designs are facilitated for installation and operation and they work effectively in a broad variety of applications hence being suitable for both industrial and commercial use. We offer reliable performance, great air quality, and improved safety in the workplace, so choose us.

Mesotech Engineering Systems was founded in 2021 in Pune, Maharashtra, India. The firm is an innovative manufacturer and supplier, whose primary business is the production of dust control and air management equipment. Our product range encompasses Portable Dust Collector, Dust Control Booth, Reverse Air Bag House, Dust Extraction Systems, Automatic Centrifugal Blower, MS Boiler Fan, and many more. This dedication to the pursuit of excellence forces us to design products that effectively fuse productivity and sound economic principles. Taking advantage of long-lasting materials, high-tech filters, and unique constructions, we offer compact, easy-to-service, and eco-compliant systems.

Key Facts

No of Staff	12
Year of Establishment	2021
OEM Service Provided	No

Our Products

Reverse Air Bag House

Flour Mill Dust Collector

Dust Extraction Systems

MS Cyclone Dust Collector

Belt Driven Centrifugal Blower

3 Phase Combustion Blower

MS Boiler Fan

3000RPM Ms Blower

Electric Centrifugal Blower

High Pressure Blower

Three Phase Centrifugal Blower

Automatic Dust Collector

Dust Control Booth

Heavy Duty Industrial Blower

Industrial Centrifugal Blower

Automatic Centrifugal Blower

ADDRESS

Flat No. 297, Next to Sahani Gas Agency, Sector 7 Bhosari Midc, Pune, Maharashtra, India (411026).
