PRODUCT CATALOGUE

Diamond International

AK Cast & Forge

A grayscale photograph of three men in a construction site. The man on the left is wearing a plaid shirt, a hard hat, and safety glasses, with ear protection around his neck. The man in the middle is wearing a suit jacket, a white shirt, a hard hat, and safety glasses. The man on the right is wearing a suit, a tie, a hard hat, and safety glasses. They are all looking upwards and to the right, holding a large sheet of paper (blueprints) in front of them. The background shows a complex steel structure of a building under construction.

About Us!

- Mr. Tirlok Singh, along with his two sons Manmohan Singh and Paramjit Singh, started their entrepreneurial journey in the early 1980's by entering the auto parts and engineering components industry. What began as a small initiative in manufacturing automotive and industrial parts gradually expanded into a strong

foundation in ground engaging tools, castings, and wear-resistant components. With consistent effort, technical knowledge, and dedication to quality, the family business steadily grew. Over the years, the group diversified its product line and strengthened its manufacturing capabilities. Today, Diamond Group is a trusted supplier of high-quality components to several leading OEMs, continuously meeting industry standards through precision engineering and strict quality control. Under the dynamic leadership

Office

of Manjot Singh & Prabhnoor Singh (Grandsons of Mr. Tirlok Singh), the group has adopted modern manufacturing technologies, advanced heat treatment processes, and efficient machining practices, supported by a skilled team of engineers and technicians. From automobile parts to heavy engineering components, Diamond Group has built a strong reputation for durability, performance, and reliability.

- Companies under the flagship of Diamond Group are:
- Diamond International, Jalandhar, Punjab
- Diamond Motors, Jalandhar, Punjab
- AK Cast and Forge, Jalandhar, Punjab
- Corporate Office at World Trade Centre, Mohali, Punjab (Upcoming)

Our Strengths:

Diamond Group is a class leader in manufacturing tooth points, earthmoving parts, auto components, and wear & abrasion resistant casting parts, Excavator Pin Bushing, Rock Breaker Parts, Etc. The company is supported by a highly experienced management team and skilled workforce with strong expertise in foundry technology, heat treatment, and machine shop operations.
