## About Us

As a well-known manufacturer and supplier, we, Panchal Meditech Pvt. Ltd., provide a broad range of orthopedic instruments and implants to our customers. Our offered range includes Mini Plate With Bar, Magna Cannulated Screw, Proximal Femoral Interlocking Nail, Lateral Tibia Hockey Plate, Micro Headless Screw, and more. We exclusively used high-quality, authorized raw materials to build these. With so much to offer, we can easily meet the diverse needs of our clients. Customers can choose how they would like to use this entire selection from us.

Since its establishment in 1995 in Ahmedabad, Gujarat, India, Panchal Meditech Pvt. Ltd. has consistently carved out a solid and identifiable position for itself in the market for manufacturing and supplying orthopedic instruments and implants. We offer Mini Curved Plate, Posterior Proximal Tibial Locking Plate, Distal Radius Locking Plate, Expandable Jack Cage with Plate, Orbital Plate With Bar, and many more items in our assortment. We have been in this industry for nearly three decades now, and our ability to update ourselves with the latest market developments has helped us survive well in this cutthroat industry. We have been successful in growing our business to new heights thanks to the aspirational leadership of our mentor. His market knowledge and industrial experience have enabled us to manufacture the highest-quality and most appropriate selection of these items.
