About Us

Aviro Energy India Private Limited has established itself as a trusted manufacturer and service provider in the electrical and renewable energy sector. Over the years, we have dedicated ourselves to delivering high-quality, reliable, and innovative solutions that cater to the diverse needs of our clients across India. At Aviro Energy, our primary focus is on the design, manufacturing, and distribution of cutting-edge electrical products. Our extensive product portfolio includes AC breakers, commercial inverters, earthing strips, electric wires, and EV chargers, each engineered to meet the highest industry standards. By combining advanced technology with robust manufacturing practices, we ensure that our products deliver superior performance, safety, and longevity.

Our AC breakers are designed for seamless operation, offering protection and reliability for both residential and commercial applications. The commercial inverters we provide are efficient, durable, and optimized for energy conservation, supporting businesses in their transition toward sustainable energy solutions. With the growing importance of electrical safety, our earthing strips and electric wires are manufactured to withstand rigorous conditions, ensuring secure and uninterrupted power distribution. In line with the global shift towards electric mobility, our EV chargers are state-of-the-art, compatible with modern electric vehicles, and contribute to the development of a greener, cleaner transportation ecosystem.

Key Facts

No of Staff	56
Year of Establishment	2018
OEM Service Provided	No
Monthly Production Capacity	as per customer requirement
