ENVISION A NEW WORLD OF SUCCESS

Momentos

A souvenir for every accomplishment!

Momentos are meant for acclaiming individuals for their outstanding achievements. A medal, gift or an award, makes the recipient feel exuberant and proud for years after years. This feeling of accomplishment drives the acclaimed to strive and work harder to get such recognition over and again.

Specialized gifts are presented in schools, clubs, social service organizations and hospitals. Even in the corporate world, employees' recognition is essential to motivate them from time to time.

Thus to felicitate an outstanding performance by an individual, giving away momentos like shields, awards, trophy, medals and gifts is the best way of encouragement and creating impression about the firm or corporation. Momentos are marked with the firm or the corporations' name and also the name of the person felicitated and his achievements, usually with laser engraving. Here's offering customized designs, fonts and sizes and also varied materials like crystal, stone, marble, acrylic, wood, metal, leather or porcelain as per individuals' preferences.

Envision a wide range of trophies, awards, gifts, memento etc. with Vision Media (Cal)
