About Us

Headed by a visionary and profoundly talented professional, Mr. Vivek Ramesh Gawali, Vickhardth Automation is one of the leading companies in the industry, widely recognized as a dependable manufacturer, supplier, trader, exporter, and service provider. The products we specialize in include Siemens PLC Integration Systems, Andon Display Systems, Single Phase PLC Control Panels, Mitsubishi HMI Touch Panels, Schneider Electric PLC Systems, and others. And the services we render are HMI Programming Services, Scada Programming Services, and others. With pride, we state that both our services and products are reliable and cost-worthy.

Vickhardth Automation is a notable manufacturer, trader, supplier, exporter, and service provider in the industry. Since 2006, we have been efficiently catering to the demands for Schneider Electric PLC Systems, Mitsubishi HMI Touch Panels, Single Phase PLC Control Panels, Andon Display Systems, Siemens PLC Integration Systems, and other products. Defined as the best in quality and perfect in design, our products prove to be a worthwhile purchase for the customers. We take pride in our ability to bring forth a uniquely developed product range. Not just in and around our area of establishment, Pune (Maharashtra, India), but all over the world, customers appreciate and demand our products. Thus, we are making an impact on the market globally.
