Plastic Packaging, Roll to Roll Processing, Converting Line & Printing Machinery and Equipments

Yogi Engineering Works is engaged in Manufacturing & Wholesaling of Plastic Packaging, Roll to Roll Processing, Converting line & Printing Machinery and Equipments.

We are a leading Manufacturer of a wide range of:

- Rotogravure & Flexo Printing Machine
- Paper Industries Coating Plant & Machinery
(Paper, Paper Cup, Thermal Paper, Sublimation Paper, Release Paper etc.)
- BOPP-Cello Tape Making Plant & Machinery
- Masking-Abro Tape, Paper Tape, Double Side Tape, Surgical Tape, Foam Tape, PVC Electrical Tape Making Machine
- Paper Core Cutter Machine
- Notebook Cover-HM Paper Roll Rewinding Machine
- Aluminium House Foil Roll Rewinding Machine
- Slitting Rewinding Machine
- Doctoring-Winder Rewinder Machine
- Roll to Stretch Wrapping Machine
- Trim Rewinding Machine
- Roll to Sheet Cutting Machine
- Batch Coating Machine
- Pouch Packaging Machine
- Equipment's Items- Web Guide System, Air Shafts, Air Rubber Tube, All Type Industrial Rollers, All Type Industrial Cutters

Key Facts of Yogi Engineering Works:

Nature of Business	Manufacturer, Wholesaler, Supplier
Location	Ahmedabad, Gujarat, India
Year of Establishment	2021
UDYAM Reg. Number	GJ-01-0476200
GST Number	24AADFY6143M1ZU
IEC Code	AADFY6143M

Precision Engineering Excellence in Plastic Packaging, Roll to Roll Processing, Converting line & Printing Machinery Solutions for Your Industrial Success.

Incorporated in 2021, in Ahmedabad, Gujarat, **Yogi Engineering Works** has emerged as one of the reliable names in the industrial machinery industry. We are a wholesaler, trader, and supplier that deals with precision slitting and rewinding solutions across all industries. The dedicated professionals employed here, working towards excellence with our comprehensive range of slitting machines designed to suit diverse applications.

Our business philosophy is basically an integration of technological innovation into practical functionality. In our view, we are well aware of the dynamism involved within and through modern industries, and hence we provide solutions that enhance productivity in terms of output quality. Our strength lies in providing customized solutions, superior technical support, and commitment to customer satisfaction. We have been able to maintain our position as a partner in industrial growth on account of continuous improvement and by adhering to industry best practices.

Add. Shop No. G/5, Arpan Bungalow & Shop, Ramol Road, Gatrad, Daskroi, Ahmedabad-382449 Gujarat, India.

YOGI ENGINEERING WORKS

YOUR SATISFACTION IS GO MORE OUR PROFIT
WE BELIEVE IN QUALITY

Plastic Packaging, Roll to Roll Processing, Converting Line & Printing Machinery and Equipments

- In house Fabrication & Machining facility equipped with latest systems and technology that made the manufacturing facilities capable of delivering the highest standards in term of quality, time and satisfaction.
- Expanded capacities to cope up with simultaneous processing requirements at a time thereby to minimizing the lead time an important aspect of any project.
- In house Design & Development facility to deliver continuous innovation with latest technology that makes possible to provide an optimum customized solutions.
- Wide Range of Product Portfolio comprising all kind of product requirements for the Plastic Packaging, Roll to Roll Processing, Converting line & Printing Machinery and Equipments.
- We have a topnotch position with our infrastructure base. It consists of all the modern and latest technology machines. Our infrastructure has been segmented into many different parts according to their work. All the departments work in close coordination with each other. In adding to this, owing to these reasons, we have been able to deliver products within a limited time to attain complete satisfaction.
- We are providing top quality of products. Owing to his commerce experience and deep commerce skill, we have achieved the success in this area in a proficient way.
- Our Company Tag line (Slogan) are “Your Satisfaction is Go more Our Profit”
- We Believe In Quality
- These products are extremely admired in the industry owing to their characteristics and low prices.
- Our existing clients are re-ordered our machinery.
- Positive Service Record.
- 100% Customers Satisfaction.

Rotogravure Printing Machine

- Yogi Engineering Work's Rotogravure Printing Machine is consisting of unwinding units, printing stations, and drying chambers fitted with blowers on individual printing stations.
- Rewinding station fitted with friction type mechanical clutch system and each printing station has vertical and horizontal registration arrangement in this machine.
- Registration can be adjusted during the running machine. The doctor blade assembly is string loaded provided with lateral oscillation to increase the life of Machine printing cylinders.
- Our "Rotogravure Printing Machines" are available in a wide range of web width and color configurations, from single color to 10 colors. Details can be furnished on request.
- Our Rotogravure Printing Machines are higher efficiency machines with options of front & reverse printing facility.
- Our Printing Machine is designed & constructed to meet high standards of flexible printing.
- The drying system is designed to month high-speed printing by printing dryers with heaters & blowers in Rotogravure Printing Machine
- The machine can be provided with various control systems with web aligner.

Add. Shop No. G/5, Arpan Bungalow & Shop, Ramol Road, Gatrad, Daskroi, Ahmedabad-382449 Gujarat, India.

Flexo Printing Machine

We are engaged in manufacturing, exporting and supplying Flexo Printing Machine. Our manufactured machines are available in variegated technical specifications and highly acclaimed in the market. The machines are well-manufactured with the superior grade components and pioneered technology at our premises. Besides, machines are thoroughly inspected against several parameters of quality to deliver a hassle free range at patrons' end.

Applications:- Blow Film Plant, Tarpaulin Lamination Plant, Paper, Plastic, HDP Non Woven

Key Features:- Highly efficient, Superior Performance, Durable Build, Fast Operation, Smooth Printing, Compact Design, User Friendly, Low Maintenance

Add. Shop No. G/5, Arpan Bungalow & Shop, Ramol Road, Gatrad, Daskroi, Ahmedabad-382449 Gujarat, India.

Plastic Packaging, Roll to Roll Processing, Converting Line & Printing Machinery and Equipments

Self-Adhesive Tape Industries and Paper Industries Coating Plant & Machinery

Technical Specifications:

MS Plate Heavy Duty Machine Structure
Maximum Roll Width: 1350mm Standard & As Per Customize
Material will be Process: Polyester-BOPP Film, Foam, PVC, (Tape Industries Coating) & (Paper Industries Coating) Paper, Paper Cup, Thermal Paper, Sublimation Paper, Release Paper etc.
Chamber for 30 Foot to 90 Foot Length
Heating System: Pallet, Diesel and Electrical
Drum Roller, Knurling Roller, Aluminum Guide Roller, Banana Rubber Roller Assembly.
Motor 10 HP A.C. Motor
Control Panel 10 HP A.C. Digital frequency Drive
(Penal Section we provide you Start and Stop Button, Length Counting meter, Speed adjustable-Sensor, Emergency Stop.)
Our Machine Easily Operating System
Jumbo Roll Capacity Upto 1000 Kg
Mechanical Break System for Tension Unwinder Jumbo Roll
All Side Vertical Covered from M.S. Sheet
Rewinding Speed: 30 to 100 MPM.

Optional Items Available

With Single Colour Printing Attachment
Auto Tension Control System
High Speed Require so Available 3 Drive/4 Drive System

Add. Shop No. G/5, Arpan Bungalow & Shop, Ramol Road, Gatrad, Daskroi, Ahmedabad-382449 Gujarat, India.

Jumbo BOPP Tape Slitting Rewinding Machine

Technical Specifications:

MS Plate Heavy Duty Machine Structure
Maximum Roll Width: 1350mm Standard
Material will be Process Bopp Cello Tape
Motor 5 HP A.C. Motor
Control Panel 5 HP A.C. frequency Drive
(Penal Section we provide you Start and Stop Button, Length Counting meter, Speed adjustable-Sensor.)
Mechanical Shaft Unwinder side Chuck-Nut-Bearing use
Jumbo Roll Capacity 250 Kg
Mechanical Break System for Tension Unwinder Jumbo Roll
Rewinding Mechanical Shaft-4 No. Shaft
Rewinding Shaft Automatic Turret System Motor with Gear Box
Rewinding Side Clutch System
All Side Vertical Covered from M.S. Sheet
Rewinding Speed: 100 MPM.
Production Capacity Approximately: 40-50 Box per day 9 Hours working. (65 mtr Tape)
Weight of Machine 1000 Kg Approx.
Machine Available: Three Phase

Add. Shop No. G/5, Arpan Bungalow & Shop, Ramol Road, Gatrad, Daskroi, Ahmedabad-382449 Gujarat, India.

Paper Core Loader & Unloader for Jumbo BOPP Tape Slitting Machine

Technical Specifications:

Maximum Roll Width: 1350 mm Standard
Material will be Process Bopp Cello Tape
Heavy Duty Machine Structure
Complete in all respects and putting the same in perfect working conditions as per required
Paper Core Drawer
Nylon PP Make Shaft-4 No.
Automatic Pneumatic System for Paper Core loading and unloading for 1350mm Jumbo Bopp Tape Slitting Rewinding Machine
Cylinder use for Paper Core loading and unloading
Dia- Spacer are available Aluminum
Dia- Spacer 2 inch and 3 inch
Weight of Machine 300 Kg Approx.
Machine Available: Three Phase

Add. Shop No. G/5, Arpan Bungalow & Shop, Ramol Road, Gatrad, Daskroi, Ahmedabad-382449 Gujarat, India.

Plastic Packaging, Roll to Roll Processing, Converting Line & Printing Machinery and Equipments

Paper Core Cutter Machine

Technical Specifications:

Heavy Duty Machine Structure
Maximum Web width: 500-2000mm Standard Paper Core
Material will be Process Paper Core-4mm to 30mm Thickness
Motor 2 HP A.C. Motor
PP Make Shaft & MS Make Shaft with Chrome
Core Id 76mm & 152mm etc.
Chuck-Nut-Bearing use Better finishing, assembly of V Belt & Pulley
All Side Vertical Covered from M.S. Sheet
1 No. On/Off Switch
Foot Operated, Hand Operated, Pneumatic, PLC Base Fully Automatic-All Model Available
Weight of Machine 50-250 Kg Approx.
Machine Available: Single/ Three Phase

Optional Items Available

Multi Blades-6 to 10 Nos. Available
Automatic Core Cutting then Unloading Pneumatic System
Fully Automatic PLC Touch Paid System

Add. Shop No. G/5, Arpan Bungalow & Shop, Ramol Road, Gatrad, Daskroi, Ahmedabad-382449 Gujarat, India.

Plastic Packaging, Roll to Roll Processing, Converting Line & Printing Machinery and Equipments

Roll to Stretch Wrapping Machine

Technical Specifications:

MS Plate Heavy Duty Machine Structure

Material: Box, Any Material Roll Foam-Paper & Fabric, Water Tank etc.

(Roll to Stretch Wrapping-Packaging)

Roll Working Width: 500mm to 2000mm Working

Roll Dia: 500mm to 1000mm

Material Weight Capacity 5 Kg to 100 Kg

2 Rubber Roller Assembly

Mechanical Unwinding Shaft with Chuck-Nut-Bearing use

2 HP A.C. Motor

2 HP A.C. Drive Panel

(Penal Section we provide you Auto Start and Stop Button, Length Counting meter, Speed adjustable-Sensor.)

One Side Vertical Covered from M.S. Sheet

Machine available: Three Phase

Add. Shop No. G/5, Arpan Bungalow & Shop, Ramol Road, Gatrad, Daskroi, Ahmedabad-382449 Gujarat, India.

Web Guiding System Technical Specifications:

Heavy Duty Web Aligner Unit-(Hydro Pnumo Power Pack)-
(This Machine so that you can take proper Rewinding and Finishing for Your Roll.)

- Cylinder
- Motor
- Power Pack
- Oil Tank
- Air Filter
- Air Pipe
- (SRA-TRA System-Guide Roller Assembly)
- (Unwinder System)
- Aluminum Guide Roller Assembly
- Cylinder with Trolley
- Mechanical Shaft with Chuck, Nut, Bearing Use
- Mechanical Break System

Add. Shop No. G/5, Arpan Bungalow & Shop, Ramol Road, Gatrad, Daskroi, Ahmedabad-382449 Gujarat, India.

Air Shaft Technical Specifications:

It is capable of compensating speed variation due to gauge variation with multi-cores.
Minimum 20 mm core width is possible.
Reel holding is possible at any position across the width.
No-time lost in re-positioning cores since no distance pieces are required.
Shaft can run at very high speed.
Suitable for core ID. 3" and 6"
Length as per Customer requirement.
Load up to 2 tons
Suitable for Core I. D. dia 3", 4", 6", 8" (metric size and special sizes also produced)
Length as required
Speed up to 1000 Mtrs/min
Suitable for core materials: Paper, Steel, Thermoplastics
Minimum core width 20 mm
Pipe – Steel
End Generals – Steel – simple or hardened
Cam – Brass
Lugs – Hardened Steel / Rubber

Add. Shop No. G/5, Arpan Bungalow & Shop, Ramol Road, Gatrad, Daskroi, Ahmedabad-382449 Gujarat, India.

With Intern Leaves and Short Lugs Shaft
Carbon Fibre Shafts

Air Shaft Rubber Tube Technical Specifications:

It is capable of compensating speed variation due to gauge variation with multi-cores.

Minimum 20 mm core width is possible.

Reel holding is possible at any position across the width.

No-time lost in re-positioning cores since no distance pieces are required.

Shaft can run at very high speed.

Suitable for core ID. 3" and 6"

Length as per Customer requirement.

4 meter One Part

Id & OD as per Customer requirement.

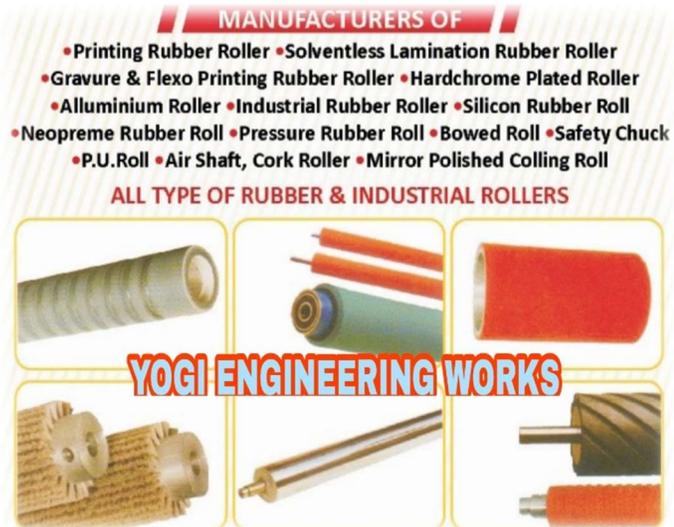

Add. Shop No. G/5, Arpan Bungalow & Shop, Ramol Road, Gatrad, Daskroi, Ahmedabad-382449 Gujarat, India.

YOGI ENGINEERING WORKS

YOUR SATISFACTION IS GO MORE OUR PROFIT
WE BELIEVE IN QUALITY

Plastic Packaging, Roll to Roll Processing, Converting Line & Printing Machinery and Equipments

All Type Rubber Rollers & Industrial Rollers

Our team of specialists offers an extensive background in engineering, covering chemistry and the capability to design coverings to meet the most demanding applications. We can insure our customers to get the most suitable covering for the specified application with our own experience. This technical expertise and the extensive understanding of roll applications and requirements remains the most important distinguishing characteristic of the company.

Rubber Concept manufactures Rubber Rollers, mainly by mounding process, under high hydraulic pressure, which ensures compact microstructure thus longer life and durability. High Hydraulic pressure ensures excellent Rubber to Metal contact thus reduce the chances of bonding failure and entrapment of air. Electronic temperature controller ensures uniform curing of Rubber over entire length of rolls thus reduce the variations. Rubber concept has developed various dies and moulds in the diameter range of 15 - 110 mm and length range of 100 - 1100 mm. bigger sized rolls are manufactured in the autoclave under steam pressure.
