About Us

Vectradigi Technologies LLP is an established and innovative manufacturer and supplier of digital signage in India with a focus of changing the manner in which brands communicate, engage and leave memorable impressions. We are a company founded on a solid vision that would provide ultra slenderness, high quality and technologically advanced display solutions, which have seen us position as a trustworthy brand in this digital screens business. Our solutions will be tailored to increase brand awareness, better audience interaction and earn customer trust in various industries.

Having a solid experience of more than 7 + years, Vectradigi has been able to prove itself as one of the leading companies in offering high-performance digital displays. We are proud to have registered with GeM which provides us with the opportunity to offer efficient services to government and public sector organizations, as well as corporate, retail, education and institutional clients throughout India. Our coverage is both retail and wholesale thus making us affordable and reliable in display solutions across the country.
