Guru Harkrishan Hydraulics is a professionally managed **Manufacturer, Supplier and Exporter** of high end machines for excellent speed, productivity and low maintenance. We have been offering an unmatched collection of Injection Moulding Machine, **Plastic Injection Moulding Machine, Plastic Processing Machine, Hydraulic Machines, Hydraulic Moulding Machines** etc. Our array of Injection Moulding Machine is designed from the high tech spares and parts to add high durability, output as well as maximum precision. We have been catering to the needs of different sectors by providing standard and tailor made solutions as per the exact demands of the patrons.

Over the years, we have been providing complete satisfaction to the clients by offering latest technology at the best process. With talented human resource and advanced production facilities, we have been meeting the expectations of our huge client base. Our team of dexterous engineers holds enormous experience and in depth knowledge of the respective domain that help us to stand apart from our counterparts. Backed with modern production methods, we have been developing quality products in huge quantity within the stipulated time frame. Owing to client centric policies, transparency and integrity, we have been enjoying the trust of huge clientele, across the world.

Guru Harkrishan Hydraulics is a prominent Manufacturer, Supplier and Exporter of high technology range of machines for different applications. We provide an ample collection of **Injection Moulding Machine, Plastic Processing Machine, Hydraulic Machines, Hydraulic Moulding Machines, Hydraulic Cylinder** etc. Our array of machines is designed and fabricated with latest technology, powerful motor as well as easy to control panel. In addition, our range is offered in compact design and structure which further ensures easy installation & transportation. We provide customized solutions to the patrons in terms to dimension, capacity, speed, productivity, etc.

Our Products

Pet Injection Moulding Machine

Hopper Dryer

Screw And Barrel Of Moulding Machine

Injection Moulding Machine
