About Us

Sumit Rubber Industries is a well-known name of the industry, catering to a large number of market demands as a manufacturer, supplier, importer and trader of Rubber O Rings, Chevron Packing, Cords, Bushes, Couplings, Extrusion Profiles and Earth Moving Seal Kits. In addition, we offer high-quality Polyurethane Products, Hydraulic Seal Kits, Sealing Rings, Gaskets and Washers to our customers. Our range of products is thoroughly manufactured as per the international norms, using PTFE, Natural Rubber, Nylon, Silicon, Polyurethane, NBR, Butyle, Chevron Packings FKM, MPU, and other required raw material. Also, our clients can buy the products in several grades, specifications, designs and shapes as per their application need.

All our products are considered as synonym of resistivity to abrasion, dimensional & design accuracy, fine finishing and durability. For example, our Rubber O Rings have some core features like high abrasion resistance, good resilience resistance, high tear resistance and perfect adhesion to metals etc. Thus, these rings are fine for packing or sealing applications. Such highlighting features and superior quality of our products made these find their use in filters, engines, earth-moving and other industrial applications.
