

# HEMNIL PROTECTION

## Welding Curtains & Screen

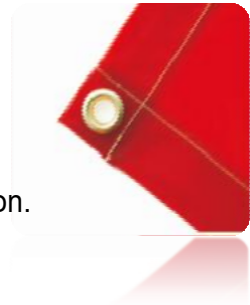

welding screen have many choices and apply to different fields. It offers safe, clean, high-efficiency working environment and improve work efficiency.

### Orange Vinyl Welding Curtain (PVC-WB-O)

Material: transparent Orange vinyl

Characteristic:

- Only allow visible light through, filtering out harmful ultraviolet radiation. No harm to the welders' eyes when they survey welding operation situation.
- Middling UV bright light resistant. Proper light refraction and minimizes the arc glare. Create a safer working environment for the welders and surrounding co-workers.
- Prevent spreading of smoke, sparks, debris and dust during the welding operation.

Type	Item No.	Size	Thickness
Orange Vinyl Welding Curtain	PVC-WB-O	1.8mX1.8m 1.8mX2.4m	0.35mm

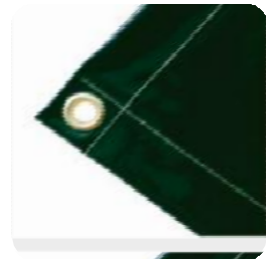

### Dark Green Vinyl Welding Curtain (PVC-WB-G)

Material: transparent Dark Green vinyl

Characteristic :

- Stop all UV radiation and blue light. Only allow visible light through, filtering out harmful ultraviolet radiation. No harm to the welders' eyes when they survey welding operation situation.
- Durable, high strength and tear resistance, it is recommended for plasma cutting or welding of high-brightness application.
- Prevent spreading of smoke, sparks, debris and dust during the welding operation.

Type	Item No.	Size	Thickness
Dark Green Vinyl Welding Curtain	PVC-WB-G	1.8mX1.8m 1.8mX2.4m	0.35mm

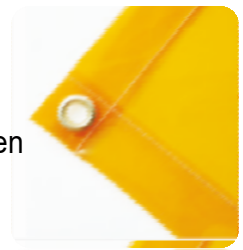

## Gold (Yellow) Vinyl Welding Curtain (PVC-WB-Y)

Material: transparent Gold vinyl Characteristic:

- Only Good visibility (with a high grade of transparency), only allow visible light through, filtering out harmful ultraviolet radiation. No harm to the welders' eyes when they survey welding operation situation.
- Prevent spreading of smoke, sparks, debris and dust during the welding operation.

Type	Item No.	Size	Thickness
Gold (Yellow) Vinyl Welding Curtain	PVC-WB-Y	1.8mX1.8m 1.8mX2.4m	0.35mm

## Blue Vinyl Welding Curtain (PVC-WB-BU)

Material: transparent Blue vinyl  
Characteristic :

- Only allow visible light through, filtering out harmful ultraviolet radiation. No harm to the welders' eyes when they survey welding operation situation
- The light from welding activity can be darkened during the welding operation. Also it was applied to medium-high amperage welding.
- Prevent spreading of smoke, sparks, debris and dust during the welding operation.

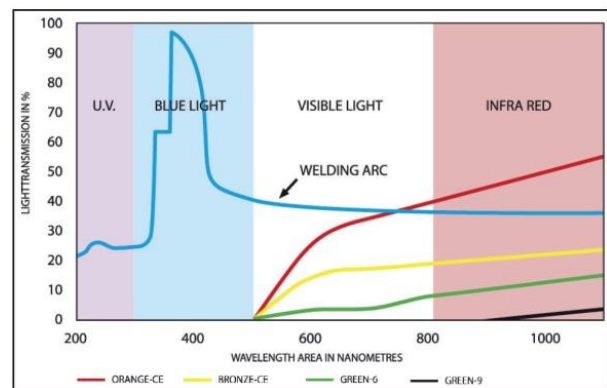

Type	Item No.	Size	Thickness
Blue Vinyl Welding Curtain	PVC-WB-BU	1.8mX1.8m 1.8mX2.4m	0.35mm

## Certification:

**DIN EN 25980:2015**  
**DIN EN 1598:2002-04**

## Welding Curtain Material Color Choice

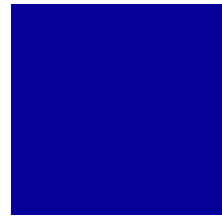

**Dark Green**

**Orange**

**Yellow**

**Blue**

## Vinyl Welding Curtain Rolls

Type	Item No.	Color	Width	Length	Thickness
Vinyl Welding Curtain Rolls	PVC-G	Dark Green	1.88m 1.93m	Indefinite Length Customized	0.35mm
	PVC-O	Orange			
	PVC-Y	Yellow			
	PVC-BU	Blue			

## Welding Protecting Screen

Material: PVC Coated Fiberglass Fabrics.

Characteristic: Prevents spreading of smoke, sparks, debris and dust during the welding operation. Fire proof, water proof, abrasion proof.

Type	Item No.	Size	Total Weight	Thickness
PVC Coated E-glass fiberglass fabric welding screen	WFF103PVC	1.8mX1.8m 1.8mX2.4m	300g/m <sup>2</sup>	0.3mm

# Welding Curtain & Frame

Material: Galvanized Stainless Steel Tube/ Black Square Steel Tube

Characteristic: Made by galvanized steel tube or black square steel tube, rust-proof, detachable, easy be assembled, easy to carry and transport. Provide different designs from single-side to tetrahedral sides according to customers' requests.

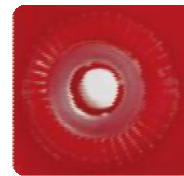

Type	Item No.	Size	Color	Options
Galvanize silvery round welding protect screen frame	WF-WH-01	1.8mX1.8m 1.8mX2.4m	Silvery	With wheel Without wheel
Black Square tube welding protect screen frame	WF-BL-02	1.8mX1.8m 1.8mX2.4m	Black	Without wheel

## Remark:

Accessories Select : Copper Ring, Plastic Ring  
Technological Select: Hot Iron, Sewing

Connection Way With Curtain And Frame:

Buckle

Zip Ties

**Above Products are our regular series, Products can be customized according to requirements.**
