

SIGMA AIR TECH

Service Excellence You Can Trust

Regd. Address: - Plot No .49A Pratap Vihar Part -2 Kirari Suleman Nagar,
K H .NO. 475 & 481 New Delhi: - 110086

Contact: - +91 8375892726, +91 9868435952

E-MAIL: Inforsigmaairtech@gmail.com , Sigmaairtechsales@gmail.com

This Is Our Product

- Screw Air Compressor
- Reciprocating Air Compressor
 - Vertical Air Receiver Tank
 - Desiccant/Heatless Air Dryer
 - Ref. Air Dryer
 - Horizontal Air Receiver Tank
 - Nitrogen Generation Plant
- Oxygen Generation Plant • Oxygen Receiver Tank
- Industrial Water Chiller • GP Filter (Pre. Filter)
 - HE Filter (Post Filter)
- Oil/Carbon Filter Automatic Drain Valve
- Sales & Service and all kinds of Fabrication Works

Service Excellence You Can Trust

COMPANY PROFILE

BACKGROUND

Sigma Air Tech is an industrial company that came into the market in the year 2020 and is located in Delhi, India. This company has opened its own manufacturing unit where it manufactures machines like screw air compressor, all types of piston compressors, Air dryers, Air receiver Tanks, oxygen tanks, desiccant dryers / heatless dryers, water chillers and runs industrial pneumatics machines and we have created a different Image in our few years. We have the most intelligent engineers of India who claim to make their machines powerful. We have installed our machines by sharing our experience in one of the best companies of India and we have a very good service team, due to which we claim to be even better.

Our Expertise In Below Products & Services

- ***AIR COMPRESSORS SCREW & PISTON***
- ***AIR DRYERS***
- ***Desiccant Air Dryer***
- ***AIR RECEIVER TANK (MS/SS)***
- ***AIR FILTERS ALL TYPES.***
- ***NITROGEN N2 PLANT***
- ***WATER CHILLERS.***
- ***ANY TYPE OF FABRICATION/ MANUFACTURING***

Screw Air Compressor

Reciprocating Air Compressor

Manufacturing of Air Dryer

Manufacturing of Skid Mounted Air Dryer

Manufacturing of Heatless / Desiccant Air Dryer

Manufacturing of Air Receiver

An air receiver, sometimes referred to as a compressed air tank, is an integral part of any compressed air system. Its main purpose is to act as temporary storage to accommodate peaks in demand from your system and optimise the running efficiency of your plant.
