

# Cold Room Catalog

Cold Room is an advanced refrigeration storage solution designed for preserving perishable goods under controlled temperature conditions. Widely used in food processing industries, dairy units, pharmaceuticals, cold chain logistics, hotels, restaurants, and agricultural storage facilities. These cold rooms are manufactured using premium quality insulated panels and energy-efficient cooling systems for reliable and long-lasting performance.

Product Name	Cold Room
Material	PUF Insulated Panels
Temperature Range	-25°C to +10°C
Voltage	220V / 380V
Frequency	50 Hz
Usage/Application	Food Storage, Pharma, Dairy, Vegetables
Cooling Type	Air Cooled
Door Type	Hinged / Sliding
Body Thickness	60 mm - 120 mm
Power Source	Electric
Condition	New

## Key Features:

- Energy Efficient Refrigeration System
- Heavy Duty Insulated Construction
- Corrosion Resistant Body
- Easy Installation & Maintenance
- Long Operational Life
- Suitable for Industrial and Commercial Applications
