- [SINCE 2007]
- We are a prominent Manufacturer and Supplier of high quality **Elevator Control Panel, Elevator Cabin, Elevator Machine, Elevator Door, Elevator Operating Panel**, etc. Offered range is manufactured as per the industry set norms.

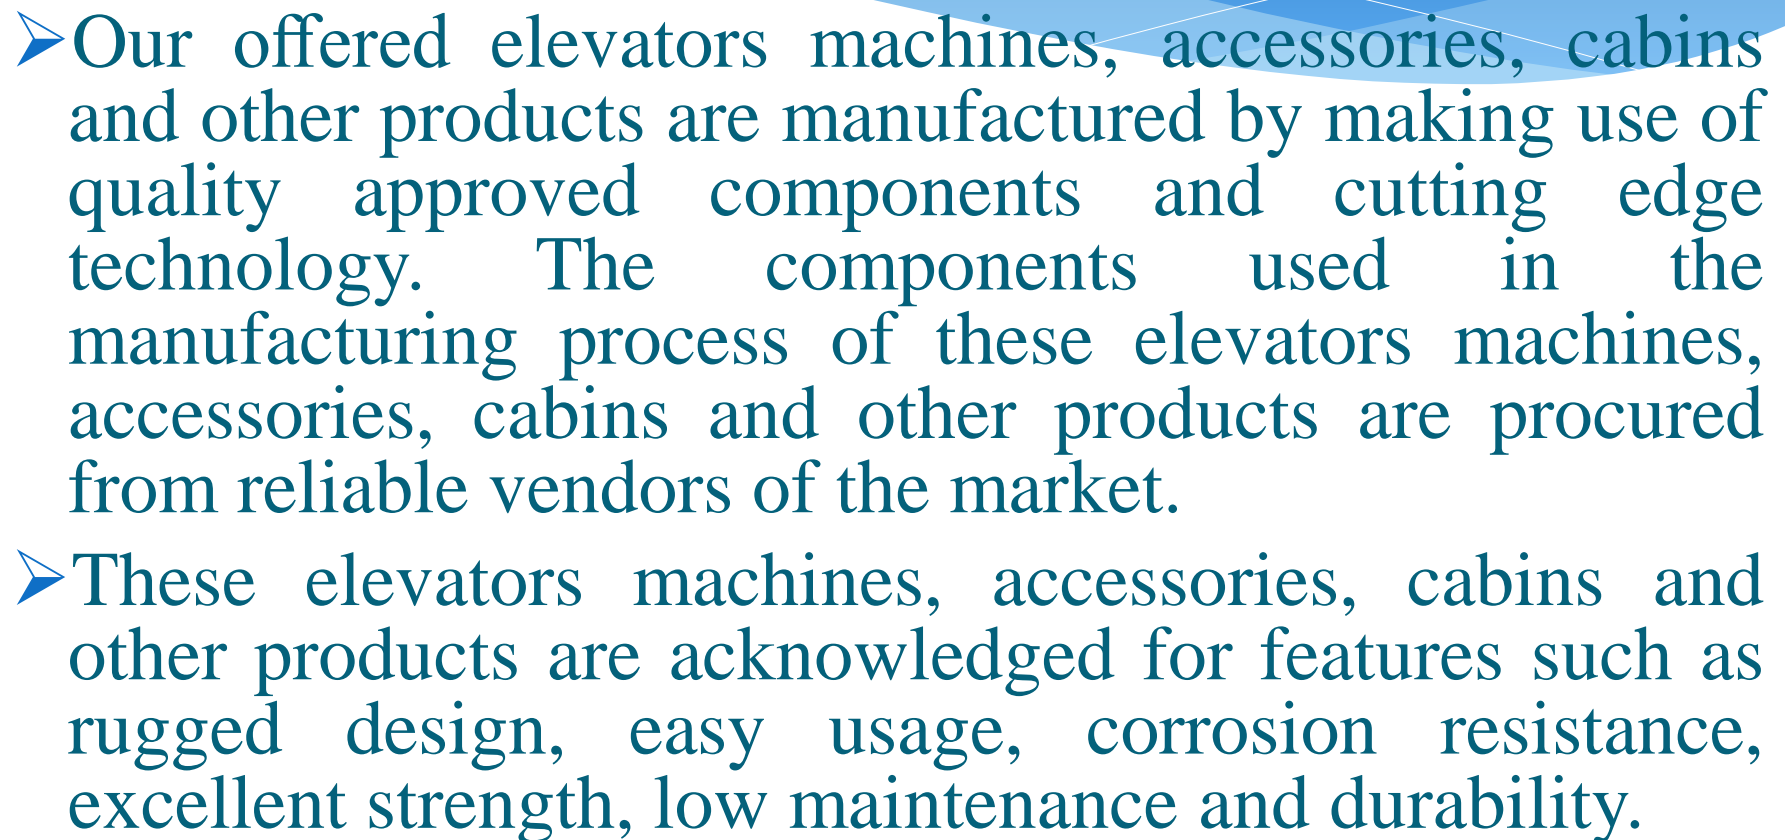

OUR PRODUCTS

COMPANY PROFILE

- We “**V-Tech Engineers**” are the foremost **Manufacturer and Supplier** of the best class **Elevator Control Panel, Elevator Cabin, Elevator Machine, Elevator Door, Elevator Operating Panel, Customized Elevator**, etc.
- Incepted in the year **2007** at **Ahmedabad (Gujarat, India)**, we have constructed a state-of-the-art infrastructural base. We have properly segregated this infrastructural unit into different well functional and capacious departments like procurement, manufacturing, quality testing, R & D, sales, packaging, transportation, etc.

- 
- To control all these departments in an organized manner, we have appointed a team of experienced team members. Under the direction of our mentor “**Mr. K. B. Patel**” we have gained strong foothold in this domain. Apart from this, we have gain a huge client base across the nation owing to our easy mode of payment, ethical business policies, crystal clear business dealings, client centric approach, customized solution and prompt delivery.

- 
- Our offered elevators machines, accessories, cabins and other products are manufactured by making use of quality approved components and cutting edge technology. The components used in the manufacturing process of these elevators machines, accessories, cabins and other products are procured from reliable vendors of the market.
 - These elevators machines, accessories, cabins and other products are acknowledged for features such as rugged design, easy usage, corrosion resistance, excellent strength, low maintenance and durability.

- 
- We provide these elevators machines, accessories, cabins and other products in diverse specifications to cater varied requirements of clients at nominal prices. Besides, we have also constructed an advanced quality testing unit where we check these elevators machines, accessories, cabins and other products against several parameters.
