

Sonar Appliances (P) Ltd Is an ISO 9001:2015 Company since 2005 in the organised sector of water purifier with the alarming degradation of drinking water in our country, today's consumer need an up gradation to a technologically advanced water purification system. Company is using all major component up to the international standards only. Company is having bunch of professionals from the industry having unmatched experience of identifying the customer need designing, Installation, Commissioning and after sales services.

Water

Water which is the most essential-part of our life. As whole universe is containing 75% Water & 25% earth. Our whole body contains 90% of water all major diseases cause through water only.

What is Reverse Osmosis?

Reverse Osmosis (RO) is a ultra modern process of water filtration under high pressure using special - semi permeable membrane to remove suspended dissolved viral- & bacterial- and chemical-impurities up to 0.0001 micron from water. It removes undesirable salts which cause blood pressure, Stone, indigestion, Gastric, Arteritis Jaundice, Typhoid, Hepatitis & many more disease. It makes even ground Salty water to bottled water standards.

Analysis of Filtration Method

- | | |
|------------|--|
| 1. Boiling | Deactivate Bacteria |
| 2. UV | Deactivate Bacteria, Removes Odour, Dust Particles, Chlorine. |
| 3. RO | odour, Bad Taste, Bacteria, Virus, Chlorine, Fluoride, Dissolved Salts, Insecticides, Pesticides & all other pollutants. |

The Vision

Safety+Health+Economical+Time Saving+convenient.
+ Prompt Service+Advance Technology

SONAR

SA-1007 SS

- 10 TO 12 ltr/hr Output Capacity
- 10 ltr SS Tank Storage Capacity
- Auto On/Off
- 48V Pump/36v Adaptor
- Prefilter Bowl
- PH Cartage
- Membrane
- In Line Sediment filter
- In Line Pre Carbon Filter
- Post Carbon
- Dimensions : L420, H508, W204 (mm)

SA-1004 WD

- Hot, Cold & Normal RO with Dispenser
- Enjoy hot, cold and normal water in all weathers
- 10 Ltr SS Tanks Storage capacity
- 6 Ltr Cold, 3 Ltr Normal, 1 Ltr Hot
- 1 Ltr hot Water
- Auto On/Off
- 48V Pump / 36V Adaptor
- Prefilter Bowl
- RO Water Output Capacity 10 to 12 ltr/hr.
- Membrane
- In Line Sediment Filter
- In Line Pre Carbon Filter
- In Line Post Carbon Filter
- Dimensions L331, W305, H1118 (mm)

SA-1002 WM

- 12 Ltr/Hr Output Capacity
- Double Oring Housing
- 15 Ltr Storage Tank Capacity
- Auto On/Off
- Low Pressure Switch
- 48V Pump/36V Adaptor
- Exclusive Faucet
- Membrane
- Dimensions L381, W204, H458 (mm)

SA-1004 WD (Super)

- Hot, Cold & Normal RO with Dispenser
- Enjoy hot, cold and normal water in all weathers
- 15 Ltr SS Tank Storage capacity
- 8 Ltr Cold, 6 Ltr Normal & 1 Ltr Hot.
- Prefilter Bowl
- RO Water Output Capacity 20 to 25 ltr/hr.
- Auto On/Off
- Membrane
- In Line Sediment Filter
- In Line Pre Carbon Filter
- In Line Post Carbon Filter
- Suitable for Offices, Banks & Modular Kitchen (20-25 persons)
- Dimensions L407, W356, H1169 (mm)
