

DIGITAL PULL OUT ANCHOR TESTER

Application:

Pull out anchor tester, also known as (anchor rod tension meter). Applicable to testing various anchor rods, anchor cables, steel bars, planting bars, expansion bolts, chemical anchor bolts, railway spikes, and various kinds of anchors. It can also be used for on-site pull-out resistance testing of glass curtain walls. It is a necessary testing instrument for each (quality inspection unit, reinforcement unit, supervision unit, university, coal mine, etc.)

Equipment introduction:

Pull out anchor tester is composed of a hand pump, a hollow hydraulic cylinder, a digital pressure gauge, a high-pressure oil pipe (with quick coupling), and optional accessories (Anchor, Conversion heads, Tie rod) and a portable carrying case.

Features

1. The display adopts Switzerland imported sensors, with an accuracy of 1% F.S.
2. LCD lighting functions;
3. Peak hold, automatic shutdown without operation;
4. The value is corrected by 10 segments of broken lines to improve the accuracy of the instrument;
5. Power supply: Ultra-low power consumption design;
6. Durable sealing ring, automatic spring reset, simple structure;
7. The surface of the hydraulic cylinder is corrosion-resistant electrostatic spraying, nickel-plated pistons and sliding sleeves.
8. The hollow part is equipped with a dust cover, overload protection, and quick anti-leakage joint

Suitable for rebar Specimens of 6mm, 8mm, 10mm, 12mm, 14mm, 16mm, 18mm, 20mm, 22mm, 25mm, 28mm, 32mm, 36mm and 40mm dia. Supplied complete with anchors.

None
