

Fork Extension ATTACHMENT

We are actively engaged in offering high quality assortment of Fork Sleeve Attachments. Our best-selling Fork Extension Range fit to a truck quickly and easily. Simply; remove the heel pin and drive into the extensions, once fully entered, simple lift and re-fit the heel pin.

Our Fork Extensions are designed to offer occasional long reach and stabilizing capabilities. Allow stable and safe handling of loads, which are longer than the truck forks whilst retaining truck maneuverability for conventional operation. Our fork extensions come with a closed section at the heel, ensuring suitability for any drop of fork, in compliance with BS EN 13284 standard.

Our range also come with a fully capped rounded toe, for durability and strength, whilst the shape allows easy entry and exit from loads. Our range of extensions are manufactured from a 5mm mild steel pressed section, with two 8mm stiffening plates welded inside each section, ensuring CONTACT extensions are one of the strongest in the market.

Features:

- Sturdy design
- High performance
- Ease in retro fitting
- Minimum installation time
- Safe fastening
- In house tested & certified

Model	Length in mm	Mass in KG	C of G in mm	Suitable Max Fork Section
