About Us

Imperiea Engineering & Sourcing Private Limited endeavours to be a reliable industrial sourcing partner and links industries to sourcing quality materials and application oriented solutions. As a supplier and trader, we know that having materials that are reliable is a vital component in the productivity and efficiency of equipment and the smooth running of industrial operations. A customer-centric approach helps to clarify requirements, identify appropriate products and arrange supplies for various business activities. The products span the range from hydraulic oil, gear oil, industrial lubricants and industrial grease, to compressor oil, neat cutting oil, and welding wires, all of which are suitable for use in the automobile sector, as well as in the automotive, forging, construction, energy, pharmaceuticals, agriculture and other sectors of industry. Products are chosen for each category with care to ensure reliable product quality, consistent performance, effective lubrication, wear protection, thermal stability, corrosion resistance, and reliable application results. The need can be to minimize friction in machinery, enable an easy flow of equipment operation, facilitate heat removal, prevent wear on parts, or ensure reliable weld performance. A wide variety of products also allows companies to meet different material needs in their industries by relying on a single source for their supply chain.

Imperiea Engineering & Sourcing Private Limited is a Pune, Maharashtra, India based company established in 2024. We are a trader and supplier of a well-selected range of hydraulic oil, gear oil, industrial lubricants, industrial grease, compressor oil, neat cutting oil, and welding wires for industrial/commercial applications. We serve a wide range of industries such as automobile, automotive, forging, construction, energy, pharmaceuticals, agriculture and other industrial industries. The professional team ensures consistent product quality, quick deliveries, reliable sourcing, and customer service.
