About Us

Contipro Industries is dedicated to providing solutions that are practical and cutting edge and that help to make the public environment cleaner, safer, and more organized. We are a manufacturer, supplier, and service provider where we specialize in creating products for the sanitation, waste management, outdoor fitness, and community utility sectors. All solutions are engineered with high durability and operational convenience and with a long life cycle to keep pace with the needs of municipal, commercial, industrial, and community applications. We have a clear engineering mind-set and a customer-centric attitude and are still developing robust, high-performance products to enhance the performance and efficiency of public areas. The product line includes a dust separation machine, electric garbage tipper, mobile toilet van, plastic roadside twin bin, and open outdoor gym equipment, designed to ensure reliable outdoor performance and low maintenance. Each product is carefully planned, made with quality craftsmanship, and committed to providing hygienic and user-friendly product solutions in challenging environments.

Innovation and responsible development are still the core of each and every operation. By constantly striving for improvement in design, technology, and manufacturing, we can offer products that are supportive of sustainability while also maintaining maximum convenience and safety for our users. Highly experienced practitioners and technical experts collaborate to ensure excellent quality and develop innovative solutions to meet changing industry demands.
