

## Financial Saving

- CATALYTIC SUPER 5G Aqua equipment and pipes are replaced less frequently.
- CATALYTIC SUPER 5G Aqua Assures improve system efficiency.
- CATALYTIC SUPER 5G Aqua saves down-time and labour cost.
- CATALYTIC SUPER 5G Aqua uses no electricity.
- CATALYTIC SUPER 5G Aqua Clean water systems means no clogged pipes, houses, drippers and nozzles.

## Application

CATALYTIC SUPER 5G Aqua prevents scale, rust, deposits, clogging and leaks from drip, goblet, bell, troughs, hot water systems, electric valves, etc. Further CATALYTIC SUPER 5G Aqua removes hard water scale and corrosion from, sprinkler heads, irrigation pumps, water lines and other water supply/irrigation equipments.

Based on our Patented Natural Water Treatment System, CATALYTIC SUPER 5G Aqua is 100% Maintenance Free and Eco-friendly Natural Water Treatment System which serves life long benefits.

## Agricultural Uses

CATALYTIC SUPER 5G Aqua treated water is easily absorbed by soil and plants both, thus avoids unnecessary evaporation cuts your water and electricity consumption on irrigation up to 40% it improves sodium concentrations capacity of trees and plants for better production. The CATALYTIC SUPER 5G Aqua treated water improves soil composition, texture and makes it more fertile for better yield. it washes away salt deposits from active root system and result into fine root growth, high germination and higher yield from farms.0

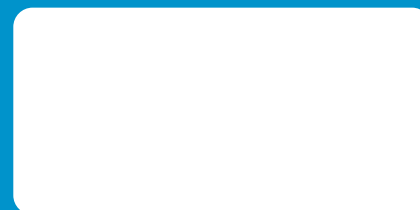

## Advantages

CATALYTIC SUPER 5G Aqua was installed in various forms at the land water outlets and notable differences were observed such as :

- CATALYTIC SUPER 5G Aqua treated water is easily absorbed by soil and plants both, thus avoids unnecessary evaporation cuts water and electricity consumption on irrigation up to 40%.
- CATALYTIC SUPER 5G Aqua treated water improves soil fertility by breaking up hard pan soil layers and removing anaerobic layers. Water requirement is reduced up to 20% along with associated pumping, labour, electricity and other maintenance costs.
- CATALYTIC SUPER 5G Aqua improves sodium concentrations capacity of trees and plants for better.
- CATALYTIC SUPER 5G Aqua reduces heat stress on plants, requires lesser fertilizers, pesticides and herbicide, gives faster and better germination, and improves nutritious.
- CATALYTIC SUPER 5G Aqua treated water improves soil composition, textures and makes it more fertile for CATALYTIC SUPER 5G Aqua washes away salt deposits from active root system and results into fine root growth, high germination and higher yield from farms, hot houses, green house, and nurseries.
- CATALYTIC SUPER 5G Aqua device use no chemicals or salt.
- CATALYTIC SUPER 5G Aqua do not pollute the environment and ground water.
- CATALYTIC SUPER 5G Aqua reduces leaf burn
- CATALYTIC SUPER 5G Aqua use no electricity
- CATALYTIC SUPER 5G Aqua treated water penetrates the soil faster.
- What this means to you is less evaporation and less water usage- Approx 40% to 60% in some cases.
- CATALYTIC SUPER 5G Aqua available in 1,1½ ,2,2½ ,3,4,5,6 diameter sizes.

## WORLD NO. 1 WATER TREATMENT TECHNOLOGY

Business Associates

Manufactured & Marketed By:  
**3G AQUA WATER TREATMENT TECHNOLOGY**  
AG 3, P Plaza, Alok Nagar, Kanadia Road,  
INDORE -452016 (M.P.) INDIA

NATURAL WATER  
CONDITIONING SYSTEM

WORLD NO. 1 WATER  
TREATMENT TECHNOLOGY

**SAY GOOD BYE TO ALL  
YOUR POLLUTED &  
HARD WATER PROBLEMS**  
FROM NATURAL WATER RESOURCES  
WITH OUR PATENTED WATER  
TREATMENT SYSTEM

*Best For*

# Technology

Natural Water Treatment System is the one which works independent of any external ingredient or stimulator and is free of chemical or electric process. This technology, by virtue of natural process, reduces heavy metals, Mercury Chlorine, iron, Mercury, Silica, Fluoride, Aluminium, Arsenic, Hydrogen Sulphide, Nitrate, Sulphate, Calcium Sulphide, Heavy Soluble Metals, scaling possibilities of hard water, lowers cost, minimizes maintenance and extends system life.

## Working Principal

**Typical Redox reaction Harmful Chlorine is removed by changing free chlorine into chloride ions. Natural Water Treatment System act as catalyst to change soluble ferrous cations into insoluble ferric hydroxide, which is easily removed by regular back washing.**

Natural Water Treatment System converts hydrogen sulphide to insoluble sulphide, which can be removed by back washing.

Redox is a high-purity, noble and semi-noble metal based alloys that treat water through special Redox mechanism. The technology creates an electro chemical reactions which transfers electrons between molecules and efficiently clears all harmful elements such as copper, Chlorine, Lead, Mercury, Silica, Fluoride, Aluminium, Arsenic, Hydrogen Sulphide, Nitrate, Sulphate, Calcium Sulphide, Calcium Sulphate, Heavy Soluble Metals and return Soft Water.

By using Improved Natural Water Treatment System, we are able to modify the crystal structure of the scale compound (calcium carbonate), changing it from calcite to aragonite improved Natural water Treatment System will soften the water from moderated hard water”, although it is not a water softener. it will change the molecular shape of the Calcium Crystal so that the calcium will be unable to adhere to a surface and will flow through in the water stream. In this way no scaling should occur and the water will be have like soft water, This system will soften the water without the need for salt. Since there are No moving parts, **NO TIMERS, NO ELECTRICITY, NO RESINS AND NO CHEMICALS ARE REQUIRED, IT RESULTS IN ZERO MAINTENANCE FOR YEARS!**

With the reaction, we are able to modify the crystal structure of the scale compound (calcium carbonates), changing it from calcite to aragonite.” To turn the scale into aragonite and eliminate it, it is used to Prevention and Elimination of scale.

Our products CATALYTIC SUPER 5G Aqua are based on our patented Redox (Oxidation Reduction) Technology invented by our expert engineers. It works entirely on Natural Process without requiring any external supplements like electricity, salt, resins etc. which makes it 100% maintenance free and safe.

## Natural Water Conditoning System

This Advanced and Natural Water Treatment system provides you soft water for all house hold clean water requirements, saves your pipelines from lime deposition and keeps you and your family fit and fine; **CATALYTIC SUPER 5G Aqua is based on 100% Natural and Zero Maintenance Technology.** This is a one time investment that gives life-long benefits, it is easy to install, zero maintenance, a real money saver device in many ways.

## Residential Uses

You know that you should clean water, but what about bathing, cooking, and cleaning water? Using hard water, which we receive through municipal water supply, is hard in nature and causes a severe damage to your skin, hair, utensils, and everything that comes in its contact, it can even cause severe health hazards. For all these problems, CATALYTIC SUPER 5G Aqua is the ultimate solution

## Advantages

**Customers, who have acquired CATALYTIC SUPER 5G Aqua for their domestic requirements, have acknowledged the improvement in overall household applications ranging from bathing, washing and cooking to individual health, too. The obvious findings were:**

- \* In soft water they worked well with lesser amount(1/2 to 2/3) of soap or cleaning products.
- \* Their water heaters consumed up to 20% less.
- \* Their razors worked well on faces and last longer because of soft water.
- \* Their clothes kept shining and last longer than they would normally do with hard water.
- \* They spent less time on cleaning floors, dishes and other utensils, with better.
- \* Water tasted better and they drink a lot of it, auto-purify internal organs and stayed .
- \* The software can improve hair quality & can control hair fall.
- \* Helps make hair shinier, skin cleaner, and clothes cleaner.
- \* Makes household clean easier and less.
- \* Reduces soap scum and scaling, decreasing use of costly.
- \* Reduces hard water scaling of appliances.

No more soap build-up on their skin. Skin stays softer and healthier when its natural oils are allowed to remained aren’t covered by a mineral build-up. Less soap is needed to clean the skin. This is especially important with younger children. Their skin is usually more delicate and sensitive to the irritants that are found in many soaps and cleaning products. Remember, with CATALYTIC SUPER 5G Aqua treated water, a little soap or shampoo goes a very long way. Hair is soften and easier to manage when there isn’t a build-up of minerals coating it. This means it’s easier to brush and de-tangle.

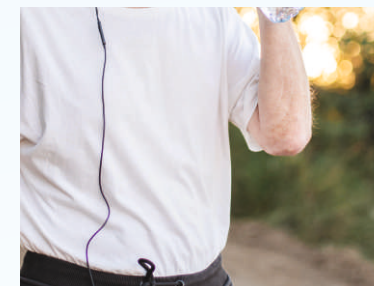

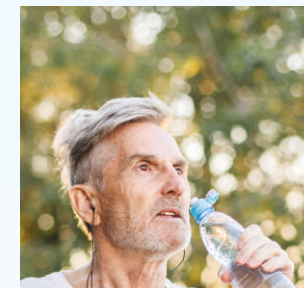

## Features

- CATALYTIC SUPER 5G Aqua considerably cheaper**
- RUNNING COST:** CATALYTIC SUPER 5G Aqua has no part to be replaced, so it has no maintenance cost.
- CATALYTIC SUPER 5G Aqua** on the other hand has no any moving part .
- COMFORT:** **CATALYTIC SUPER 5G Aqua** WILL INSTALL EASILY.
- TASTE OF WATER:** **CATALYTIC SUPER 5G Aqua** improve taste of water.
- Also gives Antioxidant water.

## Applications

**CATALYTIC SUPER 5G Aqua** treated Soft water removes lime scale from pipes hence avoids rust or deposits and your plumbing system lasts longer and once you start using **CATALYTIC SUPER 5G Aqua** treated water, you will realize the benefits in very short time period and will never return to hard water life.

## Installation Is Simple

Natural Water Conditioning System was designed with the homeowner in mind. Rather than employ a costly network of distributors and installers, we worked hard to design a condition conditioner that is easily installed by you or your neighbourhood plumber in less than 20-30 min. Natural Water Treatment System is a solid device. The device is mounted by a plumber between the outlet of tank and the supply line. The effect of the device is Instant.
