# About Us

The cables and wires industry has noticed robust growth over the years. To fulfil the rising demands of wires and cables in the market, we, **Komal Cables**, are into business as a manufacturer of electric wire and cable. Our wide range of products includes **Industrial Core Copper Cable, Round Cable, Flat Cable, Copper Flexible Cable, AC Cable, Multicore Cable**, and many more. We are high in demand due to premium quality, pattern, seamless finish, and affordable pricing.

**Since our inception in the year 2010**, we are delivering constantly superior quality products to our clients. To maintain the quality of our products, we source the best quality raw materials from the most trusted and reliable vendors in the market. We conduct various quality checks on the raw materials to ensure our products meet and exceed the quality requirements. Furthermore, we ensure on-time delivery of products using innovative delivery methods and our vast distribution network. We strive hard to serve the industry with our excellent range of products maintaining top-notch quality with complete customer satisfaction.

## Our Team

We have hired a team of professionals that helps us in achieve the goals of our company. Their expertise and efforts have made it possible to meet and exceed every demand of our clients. We have divided them into various operational units to smoothen the manufacturing process. They work together and help us ensure the top-notch quality of our products.

## Quality Assurance

Our quality-centric approach has helped us in attaining a strong position in the market. We serve our clients with the best quality products manufactured using premium grade raw materials sourced from authentic and reputable vendors in the market. Our in-house quality control team oversees the complete production unit to ensure flawless production of our products. They help us in maintaining the following industrial quality standards by conducting various quality checks at different stages of production. Our quality team ensure our product lines such as Round Cable, Flat Cable, Copper Flexible Cable, and more meet and exceed the quality requirements of our clients.
