

Exterior Deck Flooring

Product Description

Elevate your outdoor spaces with our exclusive exterior deck flooring designed for superior performance. Crafted from premium WPC (Wood-Plastic Composite), these deck planks combine style, durability, and functionality. The textured wood finish provides a natural appearance while offering slip resistance, UV protection, and outstanding weather resistance. Ideal for patios, terraces, pool decks, balconies, and commercial outdoor spaces, the flooring is easy to install, requires minimal maintenance, and delivers long-lasting performance.

Features & Applications

High durability, slip-resistant surface, UV-protected finish, weather-resistant construction, low maintenance, textured wood appearance, and easy installation. Suitable for residential patios, terraces, rooftops, pool sides, garden pathways, resorts, hotels, and commercial outdoor areas.

Sample Policy & Delivery

Samples are available on request to help customers evaluate product quality before bulk purchases. Orders are processed efficiently with prompt delivery across India according to the agreed schedule.
