About Us

Electronedge Private Limited is committed to bringing innovation, durability, and precision to all its manufactured and supplied product ranges. The company covers the scope of all industrial applications so it comes to the sector uniquely focused on engineering and functional design. Included in their respective product range are equal t ladder cable trays, horizontal bend cable trays, pre-galvanized rectangular cable trays, ss perforated cable trays, ss emergency doors, ss hmps doors, and clean room view panels. Each category of product framework is designed with the changes happening in safety, performance, and appearance requirements. It is easy to get caught up in the product range, but ultimately it is the intention behind the product design that distinguishes us. Each unit has been designed in a way to take on corrosive conditions and rugged conditions; long-term reliability is not negotiable. The clean finish, straight edge, alignment, and effective structural design allow for simple integration and support functional load ratings.

Electronedge Private Limited was established in 2024 at Ankleshwar, Gujarat, India with the main aim to provide high-precision products that will revolutionize durability and functional design in industrial infrastructure. The company is engaged as a manufacturer and supplier and has a carefully engineered product line, including equal t ladder cable tray, horizontal bend cable tray, pre galvanized rectangular cable tray, ss perforated cable tray, ss emergency door, ss hmps door, and cleanroom view panel. Electronedge has a highly effective team that focuses on long-term reliability. As a firm, we combine new technology with industry standards to produce products that are resistant to corrosion, simple to install, and in alignment with aesthetic and functional requirements. Trusted solutions built to perform whether it is cleanroom applications, cable management, or emergency access points.
