

VK TECH SOLUTIONS

ALL KINDS OF INDUSTRIAL
INSTRUMENTS CALIBRATION & SUPPLY

AUTHORISED
CHANNEL PARTNER

SINGLE GAS DETECTOR

Honeywell BW™ Solo

- Single-gas detection (various gas options)
- Compact lightweight & rugged (IP66/68)
- Clear LCD with real time readings
- Audible, Visual & Vibrating alarms
- Long-lasting battery (up to 12 months)
- Bluetooth connectivity for easy data transfer
- Easy, tool-free sensor & battery replacement

Drager Pac Series

- Audible, Visual & Vibrating alarms
- Clear, easy-to-read display
- Long battery & sensor life
- Data/event logging for safety records
- Fast response time to gas leaks
- Single-gas detection (CO, H₂S, O₂ Or toxic gases)
- Rugged, durable & water/dust resistant (IP68)

Industrial Scientific T40 Rattler™

- Single-gas detection (CO₂, H₂S, O₂)
- Ultra-fast sensor response (<10 Sec)
- Easy calibration & maintenance-free
- Long battery Life (up to 2 years)
- Peak / Hold feature for highest readings
- Rugged compact & water/dust resistant (IP66/IP68)

Uniphos KwikAlert

- Rugged & compact design (IP65)
- Bright, easy-to-read display
- Audible, Visual & Configurable alarms
- Data logging with USB connectivity
- Rechargeable battery (7-8 Hrs runtime)
- Single-gas detection (CO, H₂S, O₂, Flammable Gases)
- Reliable & accurate sensing

MULTI GAS DETECTOR WITHOUT PUMP

Honeywell BW™ MC X3

- Multi-gas detection (O₂, H₂S, CO, LEL)
- Rugged, compact & IP68 rated
- One-button operation with Reflex™ sensor technology
- IntelliFlash™ compliance indicator
- Long battery life (up to 18 hrs)

Drager X-am® 2500

- Detects upto 4 gases ILD, O₂, CO₂, H₂S, NO₂, SO₂
- Quick response, long life electrochemical sensor
- Robust, water & dust resistant (IP67)
- 360° Visible, Audible and Vibration alarms
- Light weight and ergonomic design
- Rechargeable & alkaline battery
- Optimal pump made for remote sampling
- Data logging & configurable via software

Bosean BH-4A

- Detects O₂, H₂S, CO₂, LEL simultaneously
- Fast-response, high-precision sensors
- Rugged, waterproof, dustproof design
- Visual, sound & vibration alarms
- LCD Display & data logging
- Rechargeable battery 10-15 hrs runtime
- Lightweight & compact

Riken Keiki GX-3R

- Detects LEL, O₂, CO₂, H₂S
- Up to 25 hrs battery life
- Rugged IP66/68 Protection
- Easy Z-button operation
- Large clear LCD Display
- 360° Visible, Audible and Vibration alarms
- Field-replaceable sensors & filters
- Optional pump & data logging accessories

MULTI GAS DETECTOR WITH PUMP

GMI PS 200

- Detects up to 4 gases : O₂, CO₂, H₂S, combustibles
- Compact, lightweight, rugged design
- Audible, Visual & Vibrating alarms
- Simple one-button operation
- Optional Internal pump for pre-entry testing

Industrial Scientific M40

- Detects O₂, CO₂, H₂S, LEL
- Rugged, Impact-resistant, IP55 design
- Large backlit LCD with real-time readings
- Data logging up to 75 hr
- Optional pump for remote sampling
- Rechargeable Li-ion Battery. 18 hr (diffusion) /12 hr (with pump)
- Vibrating, audible (90 dB) & Visual alarms

Honeywell BW™ MAX XT II

- Detects O₂, CO₂, H₂S & LEL
- Built-in motorized pump (23 m Sampling)
- One button operation, continuous LCD display
- Visual, audible (95 dB) & vibration alarms
- Rechargeable battery -13 hr runtime
- Rugged IP66/67, ATEX & IECEx certified
- Compact & lightweight (328 g)

Uniphos Pro

- Detects O₂, CO₂, H₂S, LEL & other toxic/flamable gases
- Multiple sensor technologies, solid-state, electrochemical, perfistar & NDIR
- Loud 85 dB audible alarm with visual & vibration alerts
- Clear LCD Display for real time readings
- Rugged industrial design with long life battery
- Configurable sensors for different applications
- Data logging & PC download capability

FIXED GAS DETECTOR

Fixed Digital Gas Detectors & Flame Detector

- Available for all Toxic & Flammable gases, with Oxygen
- Standard 4-20 mA output, Optional, MODBUS/HART Communication
- With Plug-in-Play type Smart Sensors
- Local Digital Display and Magnetic Calibration facility
- SIL2, ATEX, PESO, CIMFR certified

GAS DETECTOR MONITORING PANEL

Multi-Channel Controllers

- Multi-Channel Wall Mountable Controllers
- Controllers with Touchscreen available
- User gettable alarm Limits and Relay Outputs
- With & Without Data-Logging Facility
- With & Without In-housed Common alarm
- Available in SAFE and FLAMEPROOF Enclosures

COD ANALYZER

UNIPHOS COD ANALYZER WITH DIGESTER

- More than ten times reduction in analysis cost
- Rugged portable design with no moving parts
- Ten time reduction of samples and chemicals used
- Ten time reduction in hazardous waste production
- Reduction in space and operator time
- Total digestion time is 2 hours but, operator analysis time is less than 2 minutes
- On board memory, stores up to 1000 test results along with time & date
- Computer and printer interface

GAS DETECTOR TUBE SYSTEM

GAS DETECTOR TUBES

- Uniphos Gas Detector Tube which is to be used with a sample draw pump provides an easy, quick and accurate method for a direct on the spot measurement of gases and vapours present in air
- The tubes are highly specific to the target gas
- Available for NH_3 , H_2S , SO_2 , Cl_2 , PH_3 , HCl , HCN , CO , CO_2 , O_2 , C_6H_6 and several other gases and vapours for more than 120 gases
- Spot check of toxic gas concentration at work place at specified intervals

**CALIBRATION & MAINTENANCE
SERVICES AVAILABLE FOR
ALL MAKES & MODELS OF
GAS DETECTORS.**
