HDPE DRUM SHREDDING MACHINE

About Us

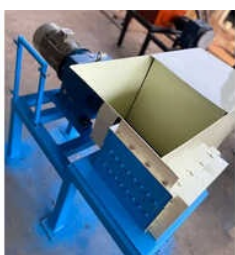

Gopinath Enterprise is a firm with a devoted purpose to providing innovative waste management solutions through its nature of business as a manufacturer and supplier. The company was developed with an eye on innovation and sustainability, focusing on developing high-performance machines that cover the broad spectrum of industrial and municipal waste. The shade of waste covers everything - organic waste shredding machine, tyre shredder machine, HDPE shredder machine, granules shredder machine, E-waste shredding machine, biomedical waste incinerator system, packaged sewage treatment plant, each machine is a marker of engineering capabilities and our commitment to improving the world.

Our systems are designed for toughness and engineered for world-class performance by using solid industrial construction materials, corrosion-resistant components, and electronic systems, to help each machine consistently perform even in severe conditions. From the silent performance of waste shredders to the least amount of environmental impact of a sewage treatment machine Gopinath Enterprise helps modern businesses manage their waste in more powerful, practical ways. Providing machines that can be customized, manufactured to fit existing equipment, manufactured for a low operating noise level, and designed for businesses that demand reliability based on long-term engineering performance.

Key Facts

No of Staff	10
Year of Establishment	2025
OEM Service Provided	No

Our Products

Organic Waste Shredding Machine

E Waste Shredding Machine

MS Bio Medical Waste Shredding Machine

Paper Core Shredder Machine

ESS-P100 Pharma Shredder

MS Automatic Rubber Shredder

Plastic Bottle Shredder Machine

Tyre Shredder Machine

PVC Pipe Shredder Machine

Plastic Bottle Shredding Machine

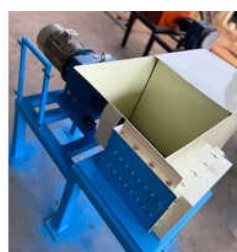

Aluminium Shredder Machine

Industrial Wood Shredding Machine

Hdpe Shredder Machine

MS Automatic Plastic Shredder

MS Motorised Metal Shredding Machine

Metal Scrap Shredder Machine
