About Us

Since our inception in 1990, Exemplar, has established itself as a leading manufacturer and supplier of a premium range of chemicals. Our diverse portfolio includes Mono Potassium Phosphate, Sodium Metasilicate Anhydrous, Potassium Tartrate Dibasic, Sodium Gluconate Powder, etc., all of which are highly acclaimed in the market. Every product is manufactured in strict adherence to industry standards, using superior raw materials and advanced machinery to ensure consistent quality and performance. To maximize customer satisfaction, we offer our products at highly competitive prices.

Our state-of-the-art infrastructure, equipped with modern machinery and technology, supports our production excellence. The facility is systematically divided into functional units for streamlined operations, helping us achieve efficiency and maintain high standards. Continuous upgrades to our infrastructure reflect our forward-looking approach and commitment to growth. Under the visionary leadership of Mr. Nitin Gupta, we have achieved remarkable success over the past three decades. His strategic foresight, market acumen, and ability to lead under pressure have been instrumental in building long-term partnerships with industry giants such as Ranbaxy, Pfizer, and Dabur.
