About Us

Kaykay Industries is known worldwide for designing and developing an extensive range of innovative products in the industry. Since our foundation 2001, we have developed and sustained long lasting relationships with our clients while maintaining competitive price structure. Incorporating technological advancements and techniques, we have acquired a notable position of leading Patient Education Models Manufacturer, Exporter, Supplier and Distributor. We are engaged in the fast and efficient production of human anatomical models, Kidney Models, Joint Models, Heart Models, Artery Models, Heart and Artery Models, etc.

Our success and growth in the industry is based upon our ability to deliver on our promises within the specified time frame. This has been possible with the continuous revision and improvement of our products on a timely basis. We continuously incorporate advancements in technology and manufacturing capabilities to ensure that our products stand tall in the areas of durability, efficiency and performance. Besides, our team of experienced professionals are completely well versed to ensure that all the orders are met within the parameters of quality.
