

Certificate of Analysis

Dipropylene glycol, 99%

Synonyms	: Bis(hydroxypropyl) ether, 1,1'-Oxybis(1-propanol)
Code	: D 2352
Mol. Formula	: $\text{HOC}_3\text{H}_6\text{OC}_3\text{H}_6\text{OH}$
CAS	: 25265-71-8
Mol. Weight	: 134.17
Applications	: D 2352 (OTTO) Dipropylene glycol, 99% Cas 25265-71-8 - used as a plasticizer, an intermediate in industrial chemical reactions, as a polymerization initiator or monomer, and as a solvent. D 2352 (OTTO) Dipropylene glycol, 99% Cas 2526571-8 - used as an intermediate in polyurethane polyols, alkyd resins and nonreinforced polyesters. In addition to this, D 2352 (OTTO) Dipropylene glycol, 99% Cas 25265-71-8 - used in dyes, paints, hydraulic brake fluids and cutting oils.
Description	
	: Dipropylene glycol is a colorless, nearly odorless liquid with a high boiling point and low toxicity.
Properties	
Categories	
Assay	: Oxygen compounds, Polyols
Appearance (Form)	: 99%
Appearance (Colour)	: Liquid
Density	: Colourless
	: 1.023 g/mL at 25 °C(lit.)
