CERTIFICATE OF ANALYSIS

SODIUM SULPHIDE

CAS Number	1313-82-2
Grade	Medicine Grade Pharmaceutical Intermediates
Molecular Formula	Na ₂ S
Molecular Weight	78.04 g/mol
Solubility	Soluble in water, forming strongly alkaline solutions.
Shelf Life	60 Months
Physical Form	Anhydrous sodium sulfide is typically a yellow to brick-red crystalline mass or fused solid, although pure forms are colorless
Purity(%)	The most frequently available industrial grade of sodium sulfide is sold as 60% minimum (Na ₂ S) by weight
