## About Us

Commenced our business operations in the year 1985, we, Pratik Ceramics, are a noted Manufacturer and Supplier engaged in the business of offering a comprehensive range of products which includes Thermocouple Refractories Tubes, Heating Element Refractories, Wire Wound Resistance Ceramic Tubes and more. Our experts, who have been serving us since the very beginning, are present during the production process to give suggestions in order to make it flawless. They ensure only the high-grade raw material is used for the production, conformed to the set industry standards, followed by the engineers. Such fixation to quality has earned us accolades in the market along with an ISO 9001:2008 certification. The products we offer are acclaimed in the market for some unmatched qualities precision engineered, rustproof, dimensionally accurate, anti-abrasive, excellently polished, resistance to wear & tear, long lasting and reasonably priced. Owing to these excellent qualities, they are widely appreciated in the international market and highly used in Furnaces, Foundries and Industrial Heaters.

We are a customer focused organization, ensure all our policies and acts lead to mutual benefit. This keeps the client satisfied and helps us grow, simultaneously. We have also set up a logistics department, where all the database for each order's delivery time and status is recorded. Owing to our transparent business policies, we allow the clients access into our systems so that they can know the status of their order without having to call us.
