About Us

Established in 1996, Laxmi Steel Tubes has grown to become a trusted name in the steel and construction industry. Based in Ghaziabad, Uttar Pradesh, India, we are known for our commitment to quality, precision, and reliability. Over the years, we have served numerous industries with products that stand strong in performance and durability, helping businesses achieve excellence in construction and infrastructure development. As a leading manufacturer, trader, and supplier, we offer a wide portfolio of steel products designed to meet diverse requirements. Our product range includes Scaffolding Vertical Standards, MS Square Pipe, Adjustable Props Jack, Galvanized Iron Pipes and MS Structural Pipe. Each product is carefully manufactured with advanced technology and premium materials, ensuring consistency in strength, durability, and safety. Our solutions are widely used in construction, industrial projects, and various heavy-duty applications.

Quality is at the core of everything we do. We follow strict manufacturing processes and conduct rigorous quality checks to deliver products that meet industry standards. Our focus on durability and precision ensures that every item we supply can withstand tough usage conditions. With years of expertise, we have established ourselves as a reliable partner, trusted by clients for delivering products that contribute to safe and efficient operations. With nearly three decades of industry presence, we continue to focus on growth, innovation, and customer satisfaction. Our vision is to strengthen our position as a leading supplier of steel solutions while continuously upgrading our technology and product portfolio. By maintaining high standards and adapting to evolving market needs, we are committed to contributing to India's industrial and construction progress.
