## About Us

With the support of a wide distribution network and strong sourcing capabilities, we, Aquatic Chemicals, are capable of providing pure and accurate composite range of chemicals like Potassium Humate Powder to customers on time. We are known as a leading manufacturer, exporter, importer & supplier of Potassium Humate 85% Powder (100% Water Soluble), Potassium Humate Granules 85%, Potassium Bullet 85%, Humic Acid Liquid 12%, Brasinollide Powder 90%, etc.

We formulate Potassium humate in powder as well as granule forms that is processed through hot-melting process and organically extracted from peat. Therefore, our range characterizes great efficacy in enhancing the fertility of soil, applied as soil conditioner or fertilizer additives to improve the effectiveness of fertilizers. Our entire range of base chemicals or material is being sourced from reliable vendors of the country in order to maintain optimum quality.

In addition to this, we manufacture Granules from our sister concern M/s. Minerals Grinding Corporation that is engaged in manufacturing Roasted Bentonite Granules in Gujarat. Established in the year 1991, we are committed to delivering only a qualitative range of Potassium Humate Powder that matches up to the exact requirements of the customers. Customer satisfaction has been our only motive, so we ensure to build only ethical and transparent business dealing with them. It is matter of truth that our interminable business relation with clients is long-standing, witnessing that we are able to satisfy our customers to a certain extent. Moreover, the unrelenting efforts of our workforce enables us to provide our customers with superior quality range.
