## About Us

Set up in 2025, Safetynox India is a fast-growing manufacturer. Supplier, and exporter of top-grade safety and accessibility solutions. With a focus on precision engineering and customer satisfaction, we are engaged in producing products to increase road safety, public accessibility, and infrastructure longevity. We offer Plastic Traffic Cone, Aluminium Road Stud, Aluminium Solar Road Studs, Rubber Pillar Guard, PU Tactile Studs with Stem, and more. Our products have widespread usage in India and are also shipped to nations such as the Philippines and Saudi Arabia. All products are made with meticulous care and carefully checked to provide maximum performance in heavy-traffic areas, public venues, and differently-abled facilities.

At Safetynox India, we work in utter transparency and ethical business practices, building long-term relationships with our clients. Under the able guidance of Miss Preeti Chugh, whose leadership has been crucial to our success, we keep reaching newer heights in the field of safety and infrastructure. We take pride in having catered to a wide range of clients, comprising government institutions, corporate entities, schools and universities, and building contractors. Our values of quality, innovation, and promptness make us the go-to organization in the accessibility and road safety industry.
