## About Us

MSC Transformers Private Limited is a leading Manufacturer, Exporter and Supplier of high-performance power transformers, delivering dependable solutions for industrial, commercial, and infrastructure applications. Established with a focus on engineering precision and operational reliability, the company designs and manufactures transformers that ensure stable power distribution, enhanced safety, and long service life. Our expertise supports modern electrical networks while addressing the evolving requirements of domestic and global clients.

We specialize in manufacturing a wide range of transformers, including Compact Substation Transformer, Special Purpose Transformer, Ester Oil Filled Transformer, Industrial Transformer and Compact Sub Station Transformer. Each product is developed with precision engineering and strict quality control to ensure optimal efficiency under varied operating conditions. Our portfolio supports applications across industries such as manufacturing, utilities, infrastructure development, and commercial power systems.

## Key Facts

<b>No of Staff</b>	51
<b>Year of Establishment</b>	2013
<b>OEM Service Provided</b>	No

**Our Products**

**630KVA Three Phase Distribution**

**Ester Oil Filled Transformer**

**630KVA Compact Secondary Substation**

**Special Duty Transformers**

**5Mva 3 Phase Oil Cooled Power**

**2500 Mva 3 Phase Compact Sub Station**

**Station Auxiliary Transformer**

**630KVA OLTC Distribution**

**Three Phase Solar Inverter Duty**

**Furnace Duty Transformer**

**1 Mva Solar Transformer**

**5000KVA Power Transformer**

**2 MVA Solar Inverter Duty Transformer**

**Three Phase Furnace Transformer**

**Power Transformer**

**Solar Power Transformers**
