About Us

Ilevon Global Private Limited is a dynamic company that specializes in manufacturing, supplying, trading, and exporting industrial solutions that are reliable and dependable to meet the changing market demands. The interest has been on developing trust based on performance-based offerings that satisfy a broad range of industrial and commercial needs. The product portfolio consists of Araldite epoxy hardener resin, RTV silicone sealant, laminate bonding tape, value masking tape, and fire-rated PU foam spray, all of which have been designed to assist in creating a strong bond, efficient sealing, and dependable surface protection. A focus on accuracy and uniformity propels all operations. All the solutions are planned to provide high levels of bonding strength and reliability on a wide range of surfaces while having a high resistance to heat, moisture, and exposure to the environment.

The method focuses on a smooth application and uniform results so that users will be able to attain efficiency in all projects. The range is high adhesion strength and flexible, which contributes to the long-term sealing and insulation performance, even in severe conditions. There is also a focus on usability and practicality. Each of the offerings is easy to handle and use, being convenient without being detrimental to their durability. Flexibility in different conditions increases the overall operation and stability of applications, and the solutions are applicable in challenging industrial settings and to more common commercial applications. The company has been able to keep up with the ever-changing needs in the industry by constantly innovating to meet the requirements of the industry so that every product will bring about better productivity and long-term value.
