About Us

Swan Industrial Corporation is committed to serving industries with dependable engineering products designed for consistent performance. As a trusted manufacturer and supplier, our objective is to support operational excellence across multiple sectors by offering equipment that enhances productivity, safety, and system integrity. Each product we deliver reflects our emphasis on precision, functionality, and long-term value. Our portfolio includes Simplex Filters Strainers, Bevel Helical Gearbox, Stainless Steel Simplex Filters, Linear Electric Actuator and Limit Switch Box. These products are engineered to withstand demanding conditions and meet diverse application requirements. We invest in advanced production practices to ensure that every unit aligns with industry standards, delivering smooth operation and dependable results.

Since our establishment in 2021 in Pune, Maharashtra, we have steadily expanded our capabilities to serve clients across various domains. Our growth is driven by a clear focus on technological improvements, strong quality benchmarks, and structured processes. The blend of technical knowledge and disciplined execution enables us to meet client expectations while staying aligned with evolving market needs. Quality is central to everything we manufacture. From material sourcing to final inspection, each stage is closely monitored to maintain performance parameters and ensure product durability. Our customer-centric approach prioritizes transparency, timely assistance, and solution-oriented support. This ensures that every client receives products tailored to their operational requirements.
