About Us

We, S & R Optic GmbH are a reputed exporter, manufacturer & supplier of Optical Components and Units. Our range includes Mica- Quartz Waveplates, Beam Splitters, Polarizing Beam Splitters, Polarization Rotators, Step Compensators, Wedge Compensators, Plate Compensators, Prism Polarizers, Crystal Windows & Optical Flats and many more products. These are made using best quality material, keeping in mind the hygiene and environment standards laid down by the industry.

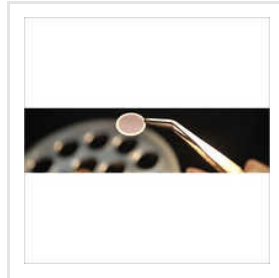

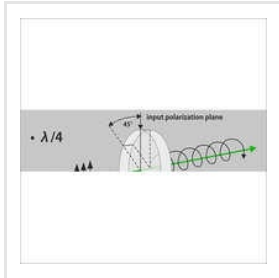

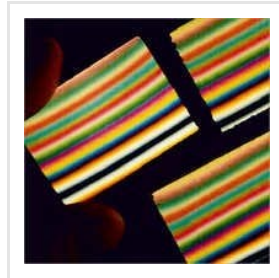

Blessed by a team of challenging experts, we have been able to meet the needs of numerous firms, across the market. With the help of our talented professionals and sophisticated facilities, we bring forth customer-specific products in the spectral ranges of UV, VIS, MIR and NIR. The experts working with us make optimum use of available resources along with employing technologically updated machines so as to come up with remarkable range of products for clients. Further, our firm is a family-owned business, which was started by Dr. Wolfgang Schneider in the year 2009.

A state-of-the-art infrastructure facility is developed by us for having streamlined execution of trade operations. Sprawling over a wide area of land, this facility provides a platform to our employees for carrying their given tasks in a well-coordinated way. Our manufacturing unit is armed with machines and equipment of latest technology, owing to which we are successfully meeting rapidly increasing needs of the clients. Further, for retaining an edge over competitors and providing remarkable products to clients, we time to time bring innovations to the offered product-line and manufacturing techniques. Further, for looking after trouble-free execution of the tasks that are taking place within our premises, we have appointed a team of experienced personnel.
