# FLEXIBLE GRAIN LIFTER

**20ft to 35ft**

## FEATURES

- The conveyor is capable of lifting upto 12-15 feet from ground.
- A faster and smarter way of material handling and movement.
- A solution to problem of labour shortage.
- Works efficiently to save time and electricity and reduce cost.
- Warranty of 6 months (for 50 to 100 feet machine)
- One time part replacement under warranty period except pvc pipe.

### FLEXIBLE GRAIN LIFTER

Sr. No.	Machine Name	LENGTH	MOTOR	Sr. No.	Machine Name	LENGTH	MOTOR
1	Flexible Grain Lifter 4" Capacity 6-8 Ton Per Hour	20 FEET	2 HP SINGLE PHASE	1	Flexible Grain Lifter 6" Capacity 13-15 Ton Per Hour	20 FEET	3 HP THREE PHASE
2		25 FEET		2		25 FEET	
3		30 FEET	3 HP SINGLE PHASE	3		30 FEET	5 HP THREE PHASE
4		35 FEET		4		35 FEET	
5		50 FEET	5 HP THREE PHASE	5		50 FEET	7.5 HP THREE PHASE
6		60 FEET		6		60 FEET	
7		70 FEET	7.5 HP THREE PHASE	7		70 FEET	10 HP THREE PHASE
8		80 FEET		8		80 FEET	
9		90 FEET	10 HP THREE PHASE	9		90 FEET	15 HP THREE PHASE
10		100 FEET		10		100 FEET	

## DESCRIPTION

Flexible grain lifter or powder loading conveyor is an equipment that moves materials, particularly paddy, immature paddy, granules and all sort of grains and powder from one location to another and store them easily in bags and trolleys.

**50ft to 100ft**

## GRAIN COLLECTOR

This hand pushing type paddy rice propelling conveyor & bagging machine is mainly used for cleaning and collecting the cereal crops, including paddy rice / wheat / grain / corn / sesame / rape seed etc, after drying under sunshine and bagging it automatically. It consists of power system, main steel frame, auto clutch transmission system, gear box system, spiral propeller collecting system and cleaning system. This machine has advantages of high efficiency, light weight, easy operation, lower fuel consumption and simple maintenance. It is the best helper with max. productivity 6 tons per hour for farmers in rural area.

### TECHNICAL PARAMETERS:

Power: 170 Gasoline

Engine 4.5kw , 3600r/min

Fuel Tank: 3.6L

Starting Method: Hand Recoil

Weight: 120 kg

Productivity: 5-6 T/Hour

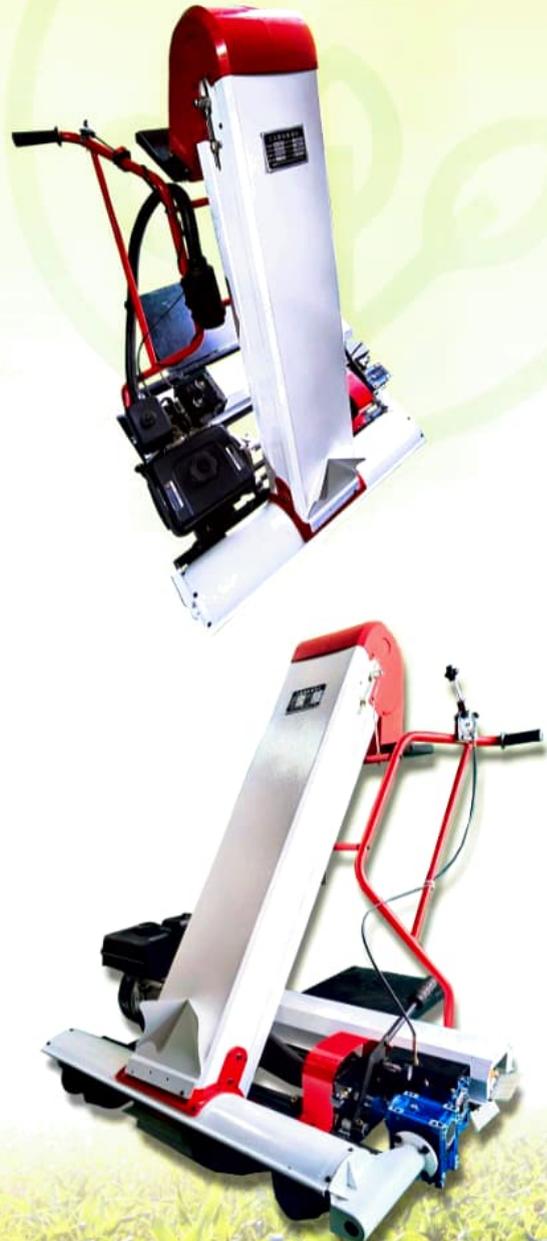

Max. Capacity: 60-80kgs/bag

Transmission Type: Auto Clutch + Gear Box

Rotate Speed of Spiral Propeller: 280r/min

Walking Method: Hand Pushing

Overall Dimension: 1435\*1020\*1270mm
