About Us

Farohar Engineering, established in 2013 and based in Thane, Maharashtra, India, is a renowned manufacturer and supplier specializing in high quality Press Brake Tools. With a strong commitment to precision and durability, the company offers an extensive range of products including Spring Loaded Hemming Die, Self Centering 2 Vee Die Block, Straight Hemming Punch, Punch Adaptor and other essential components tailored for various metal bending applications. Over the years, we have built a reputation for delivering robust and reliable tools that meet the evolving needs of the manufacturing and fabrication sectors. Our Press Brake Tools are designed to enhance operational efficiency, improve accuracy, and provide consistent performance even in demanding industrial environments. Using premium grade materials and adhering to stringent quality standards, Farohar Engineering ensures each product delivers superior strength and long service life.

Located strategically in Thane, the company benefits from excellent connectivity and access to major industrial hubs in Maharashtra, enabling timely deliveries and seamless customer support. Our dedication to innovation and customer satisfaction is reflected in its continuous efforts to upgrade technologies and refine manufacturing processes. With an experienced team and a customer centric approach, we are committed to fostering long term partnerships by providing customized solutions that align with clients specific requirements. Whether for small workshops or large scale industrial units, our offerings stand out as a reliable choice for those seeking precision, quality, and durability in metal forming operations.
