## About Us

Shreeji Strips & Wires (OPC) Pvt. Ltd. is a name that is widely known for its high-quality copper products in the electrical industry, and its commitment to excellence as a manufacturer, supplier, and trader of superior quality products. The Company's focus is to provide solutions that are durable, precise, and reliable, with easy installation into electrical systems. With an intimate knowledge of what the markets, Domestic and Industries require, Shreeji Strips offers electrical wire solutions that support the efficiency of the transfer of energy and keep voltage losses in a small range. Our products are purposefully manufactured with designs that secure structural integrity and the performance of the quality products in various ranges, including high temperatures, adverse environmental conditions, and other demanding service conditions, all while maintaining brand loyalty, performance, and innovation. We take pride in using advanced methods of production, quality assurance, along with premium raw and manufacturer quality materials in all products that are not only tested and evaluated to exceed (ISM) international standards of excellence, but also hold a mark of core development, output potential, and consistency for superior quality product performance. We continue to invest in research, development, technical advancements, and the latest experience and applied expertise, creating a manufacturing and distribution process that not only satisfies an initial proposal, product specifications, and operational tolerances but, more importantly, exceeds top performance and long-lasting capability.

Shreeji Strips & Wires (OPC) Private Limited was formed in 2025 with its registered office located in East Delhi, Delhi, India. Our firm conducts its business as a manufacturer, supplier, and trader of high-quality copper products. Shreeji Strips & Wires (OPC) Private Limited's product range includes bare copper strip, transformer winding wire, DPC copper strip, and paper-insulated copper strip, all designed for maximum conductivity, accuracy, and durability. Our firm is proud of the professionalism, innovation, and reliability of its product range products that perform consistently even under difficult electrical conditions. Backed by a knowledgeable team and with a focus on safety and efficiency, Shreeji Strips & Wires (OPC) Private Limited is your source for solutions for industrial applications and specialized needs. We are committed to quality, accuracy in manufacturing, and customer satisfaction. Our firm continues to raise the bar on reliability and performance when supporting businesses with safe and reliable long-lasting electrical solutions.
