About Us

Established in 2020 and headquartered in Gurugram, Haryana, Solrays Consultant has rapidly emerged as a trusted trader, supplier, and exporter of high quality energy and technology solutions. With a strong commitment to reliability and innovation, we cater to clients across India and international markets, offering a diverse range of products designed to meet modern power and lifestyle needs. Our product portfolio includes Power Station, Three Phase Inverter, Mobile Accessories, Monocrystalline Solar Panel, Solar Water Heater, and much more. Each product is carefully selected to ensure superior performance, durability, and energy efficiency, reflecting our dedication to sustainable and cost effective solutions.

We prioritize customer satisfaction, timely delivery, and transparent business practices. Our experienced team works closely with clients to understand their requirements and provide customized solutions that empower them with seamless access to advanced energy and technology products. Driven by innovation, quality, and a passion for renewable energy, we strive to support the growing demand for sustainable solutions. Whether it is powering homes, industries, or commercial establishments, we ensure dependable, eco friendly, and technologically advanced products that make a tangible difference. As we continue to expand our reach, we remain committed to excellence, forging long term relationships with partners and clients alike. We are not just a supplier it is a trusted partner in powering progress and illuminating possibilities.
