About Us

We are glad to welcome you to Nidhi Meditech Systems, a world-renowned and award-winning manufacturer of high-tech urology products. In the year 1995 by Mr. Divyang Shah, an electronics engineer who was a young entrepreneur founded our company. He has practical knowledge in the medical instruments production and marketing fields. Under his leadership, NMS may accomplish good results. We invite you to purchase our urology products, such as the Complete Turp Set, Fascial Dilator Set, Intra Corporeal Pneumatic Lithotripter, Turp Set, Urological Products etc. with complete confidence, regardless of whether you are the end user-surgeon, urologist, medical professional, or even a dealer. We are members of government organisations such as the Federation of Indian Export Organizations (FIEO), the India Trade Promotion Organization (ITPO), and the World Trade Centre.

In the field of urology, the company was able to develop novel and user-friendly medical equipment. All of our products have shown to be extremely beneficial and cost-effective for the medical community as a whole. The company's Intra Corporeal Pneumatic Lithotripter (2 Models) has become quite popular among uro-surgeons in this country, as it has shown to be a very useful, sophisticated, and user-friendly instrument for fragmenting stones in the kidney, bladder, and ureter. The company has produced two models, NIDHI LITH (Regular Model) and NIDHI LITH Digi, in order to stay up with recent innovations and give uro-surgeons an option (Digital Model). The company is constantly striving to keep up with worldwide breakthroughs in medical instruments and to improve existing equipment to make it more world-class, complex, and user-friendly. The NMS software department, as part of its ongoing efforts, develops software for their own machines in accordance with their needs.
