Cavitation + Tripolar RF + Monopolar RF + Vacuum

Slimming for below body parts

Features

- Painless and non-surgical way to remove fat and cellulite.
- Reduces fat in thighs, hips, stomach, back, arms, chin etc.,
- Tighten and tone skin
- Body reshaping
- Enhancing muscle flexibility

Technical Specification

Power supply input: 110V/220V 60Hz/50Hz

Power :1300W

40K cavitation head

Power supply output: 150V

Frequency: 40KHz

Power: 25W

Vacuum+ Bipolar RF head:

Power supply output: 60V

Frequency: 450K

Power: 60W

Tripolar RF head

Power supply output: 60V

Frequency: 450K

Power: 35W

Face RF head:

Power supply output: 60V

Frequency: 450K

Power: 35W

Accessories

Multipolar RF head(Tripolar RF) x 1

40KHz Cavitation Head x 1

Vacuum Bipolar Head x 1

Bipolar RF Head for face x 2

Power cord x 1

Foot Bag x 1 Small X 2

Cosmosurge

4.1MHz Ablative-Nonablative With Hair Removal

Applications

- Compound Nevus
- Epidermal Nevus
- Depressed Scars
- Warts, Mole, Tags
- Actinikeratosis
- Granulom
- Birthmark

Specification

- | | |
|---------------------|-------------------|
| + Power Required | : 220-240v/50Hz |
| + Electrocodes | : Insulated |
| + Frequency | : 4.1 Mhz |
| + Cut | : 70%cut 30%coag. |
| + Coag | : 60%coag 40%cut. |
| + Fulguration | : Available. |
| + Intensity Control | : Digital |

Features

- 3 in 1 Ablative & Non-Ablative RF with Hair Removal
- Elegant table top model
- Patient isolation transformer for complete safety
- No need of ground contact or skin contact of patient plate
- Pain less hair removal probe with conductivity gel
- No need anesthesia for Warts, Mole or Tags

Derma Care

Applications

- ☑ Active acne scar revision
- ☑ Super facial pigmentation
- ☑ Un even skin tone
- ☑ General dermabrasion
- ☑ Face and body peeling lined
- ☑ Wrinkled or sun damaged skin
- ☑ Age spot from the face
- ☑ Remove black & white heads
- ☑ Skin Polishing.

Features

- ☑ Virtually no side effects
- ☑ Effective on all skin color & types
- ☑ No anesthesia or recovery time required
- ☑ Immediate result & continuing improvement
- ☑ Patient return immediately to daily activities
- ☑ can be performed quickly (about 15 to 20 Minutes)
- ☑ 2 in 1 model - Crystal+Diamond

Before

After

Technical Features

- ☑ Noise less
- ☑ Imported vacuum pump
- ☑ Vacuum capacity: 25 inch above
- ☑ Power- AC 220/240v-50Hz
- ☑ Crystal flow: Manual as per requirement
- ☑ Delivery Angle: 90 degree
- ☑ Media Material: Pure aluminium oxide sterilized crystals
- ☑ Crystal probe tip: as per medical grade
- ☑ Hand piece material: medical standard
- ☑ Particle distribution: 80% + 100 microns
- ☑ Weight: 9.5 kg approx
- ☑ Size 32x31x21cm

Automatic Micro needling Therapy Systems (AMTS)

DERMA PEN

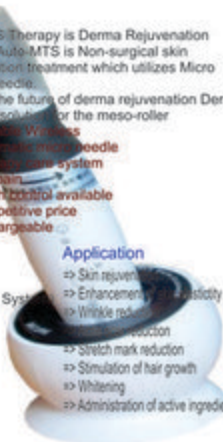

Auto-MTS Therapy is Derma Rejuvenation Therapy Auto-MTS is Non-surgical skin Rejuvenation treatment which utilizes Micro Rolling Needle.

Change the future of derma rejuvenation Derma Pen is a solution for the meso-roller

- => portable Wireless
- => Automatic micro needle
- => Therapy care system
- => low pain
- => depth control available
- => competitive price
- => rechargeable

Application

- => Skin rejuvenation
- => Enhancement of elasticity
- => Wrinkle reduction
- => Stretch mark reduction
- => Stretch mark reduction
- => Stimulation of hair growth
- => Whitening
- => Administration of active ingredients

Features

- => A system with multi-acupuncture needles to stimulate the skin.
- => Effective use in hospitals as AMTS(Automatic Micro-needle Therapy System)
- => Convenient use with rechargeable batteries
- => The whole family can use it with a simple needle replacement
- => Safety and effectiveness as a medical device approved by Korea
- => Certified by KFDA, CE, FDA, 3patents
- => 2 patents received for excellence in technology

Basic Specification

- => Multi-needling system stimulating skin
- => Depth adjustable (0.25mm~2.0mm) only with 1 needle
- => Much decreased pain compared to meso roller
- => Excellent improving effect
- => Battery charging system
- => Certified by KFDA, CE, FDA

Component hand piece hand piece is a user-friendly, Automated electronic with rechargeable battery, which allows it to lose the wire. It is a semi-permanent and both of needle tips and the guides are interchangeable.

Technical Specification

- => Dissection hand piece-177.5mm x 34.88mm x 34.88mm
- => Guide-88.65mm x80.65mmx68.21mm
- => Weight : 530g (including package)
- => Battery lithium polymer : 500mAh
- => Duration recharging time : 3hrs
- => Continuous using time : 3hrs
- => Performance high speed mode : 700 cycle/min
- => Low speed mode : 412 cycle/min

Product Include Guide

- => hand piece
 - => 1 recharging cradle
 - => 1 power code
 - => 5 guides
 - => 5 needle tips
- => Are interchangeable to adjust the length of the needles.
- => it depends on different areas or purposes of treatment.
- => it also keeps the right angle of the needle insertin.

- Battery charging system
- Certified by KFDA, CE, FDA, 3patents

Benefits

- ◆ Skin rejuvenation
- ◆ Enhancement of skin elasticity
- ◆ Wrinkle reduction
- ◆ Acne scar reduction
- ◆ Stretch mark reduction
- ◆ Stimulation of hair growth
- ◆ Whitening
- ◆ Administration of active ingredients

Technical Specification

- ✓ Dimension hand piece-177.5mm x 34.88mm x 34.88mm cradle-80.65mm x80.65mmx68.21mm
- ✓ Weight : 530g (including package)
- ✓ Battery lithium polymer : 500mAh
- ✓ Duration recharging time : 3hrs
- ✓ Continuous using time : 3hrs
- ✓ Performance high speed mode : 700 cycle/min Low
- ✓ Speed mode : 412 cycle/min

Parameters

- ◆ Adapter : 6V - 300MA
- ◆ Needle Size : 0.25-2.50mm adjust
- ◆ 2pcs Lithium battery
- ◆ Size : 14.7x 3.1cm
- ◆ Package : 18.5x15.5x5.5cm

Specifications

1. Wrinkle removal, acne removal, improve scar, rejuvenation
2. For the narrow focus of the site can be treated (glabella, depth, wrinkle, scar)
3. Shrink pores
4. treatment of stria gravidarum
5. Lifting
6. Treatment of acne scars and healing wounds

Technical Specifications

- Voltage: 5V=1000mA, 12VA
- Input: AC100-240V, 50-60Hz
- Size: 20*20*140mm
- Weight: 555g, per: 82g
- Micro needles length: 0.25.0.5.0.75.1.0mm
- Charge Time: 40 Minutes
- Battery Life: 4 Hours
- Battery Capacity: 750mh
- Micro Needle: 12 Pin
- Accessories: Machine, Plug, Battery, Charge

Guides

- Are interchangeable to adjust the length of the needles.
- It depends on different areas or purposes of treatment.
- It also keeps the right angle of the needle insertion.

Derma Roller

Derma Roller is the world's leading Micro-Needling is non-invasive, Safe, Natural, Cosmetic procedure. It activates stem cell to create new, Pump, Healthy skin through a process called Induction Therapy.

Advantages

- ✓ Minimal risks, Safe, No risk of burns
- ✓ Cost effective, Less than laser treatments
- ✓ Short healing period
- ✓ Performed under topical anesthesia
- ✓ No permanent skin damage
- ✓ No increase in sun sensitivity
- ✓ Thin or pre-lasered skin can be treated
- ✓ Suitable for all type of skin
- ✓ All areas of the Face, Neck & Body can be treated

540 Needle

- Material of needle : Titanium
- Material of handle/Roller : PC+ABS
- Quantity of needle: 540pcs
- Approved by: CE & FDA
- High sealing sterilization packing

Damaged Skin
Scars, Fine lines,
Wrinkles, Stretch
marks, Cellulite

Micro Needles
Stimulate the skin
to produce collagen

The new collagen
produced starts moving
upwards towards
the skin surface

Collagen production has
increase and is evenly spread
is skin resulting to a smoother
texture, small pore size,
reduced scars, fine lines
and wrinkles.

200 Needle

- Material of needle : Titanium
- Material of handle/Roller : PC+ABS
- Quantity of needle: 200pcs
- Approved by: CE & FDA
- High sealing sterilization packing

MOVING DIRECTION OF DERMA ROLLER

Digital Iontophoresis

Iontophoresis treatment are recognized across the world by dermatologist as one of the few successful hyperhidrosis treatment of Armpits, Hand & Feet, No Drugs, No Surgery.

Iontophoresis therapy for excessive sweating involves passing a low electric current through the affected body part (usually Hand & Feet). Iontophoresis is generally used for drug delivery. It is unclear why iontophoresis works for hyperhidrosis. One explanation is that minerals in the water get into skin and block the sweat ducts.

Application

- Hyperhidrosis using plain tap water
- Drug delivery
- Cutaneous Anaesthesia

Accessories

- Plastic for Iontophoresis (2Psc)
- Electrode plates

Technical Features

- ♦ Power - AC 220/240v 50Hz
- ♦ Microprocessor base operating system
- ♦ Digital procedure count down timer
- ♦ Intensity range: 0 to 30mA
- ♦ Spike guard protection
- ♦ Auto cut off facility with beep sound
- ♦ Digital force display
- ♦ Variable force adjustment

Digital Radio Frequency 4.1MHz With Hair Removal

Applications

- Moles, Warts, Skin tags
- Compound nevus
- Epidermal nevus
- Depressed scars
- Actinckkeratosis
- Granuloma
- Birthmark
- Rynophyma
- Xanthelasma

Electrode set

Technical Features

- Micro processor base operating system
- Pressure less cutting
- Minimum literal heat
- Micro smooth incision
- Reduced operating time
- Frequency: 4.1Mhz
- Line voltage: 220/240v AC/50Hz
- Power output: 130watt
- Mode of function:
 - 1.Coag: 60%coag-40%cut
 - 2.Cut : 70%cut-30%coag
 - 3.Fulguration : Available
- Probe: Imported Pencil type for RF
Tweezer type for HR
- Foot switch activated
- Autoclavable hand piece
- Autoclavable Electrodes
- Patient isolation transformer for complete safety
- No need of ground contact or skin contact of antenna plate
- Weight: 3.5kg

Accessories

- Probe : Imported pencil type for RF
: Tweezer type for HR
- Electrocode set : Straight needle
- Conductivity gel : for Hair Removal
 - Round loop 5mm
 - Round loop 8mm
 - 45 degree needle
 - Triangle loop 5mm
 - Diamond loop 8mm
- Foot switch : Easy to operate
- Earthing plate : For patient safety
- Mains code : 3 pin Grounded plug

Before

After

Benefits for Hair Removal

- Permanent Hair Removal
- Time & Money saving
- Portable free from Waxing, Shaving, Lotions, Laser treatments, etc

Description

The Krupa Hair Removal system is the most advanced hair removal system on the market. It removes unwanted hair for good. for the first time ever it is now possible to perform professional electrolysis professional results can be achieved using the Krupa hair removal system without the use of a needle. Tweezers are used instead to make the procedure safer and less painful clinical studies have shown that the Krupa hair removal system has equivalent effectiveness as professional needle electrolysis.

- Highly Durable Power Supply The brand Of "Meanwell" Taiwan
- Front Side American Imported "plug & Play" connector
- 8.4" Touch Screen Display With easy And User Friendly Operating Menu
- Big Spot Size: 12 X 20 MM cover treatment area instantly.

Technical Specification

Model	: Ultra Cold
Input Power	: 2000W
Laser Type	: Diode Laser
Wavelength	: 808nm/810nm
Laser Output	: 800W
Pulse width	: 5-400ms
Energy density	: 1-120J/cm2
Spot size	: 12X12mm or 12X18mm
Repetition frequency:	: 1-20Hz
Cooling	: Sapphire touch cooling
Display	: 8.4 inch TFT chromatic screen
Cooling	: Water + Air + Semiconductor
	: Compressor Refrigeration cooling (Only in our Company)
	: TEC Cooling (Only in our Company)
	: Automaotive Cooling blanket. (Only in our Company)

Diode Laser

Suprimo

Silent Features

- 808nm "The Grand Of "Light " Laser For Medical Use
- Fast Safe Repeatable Permanent Hair Removal
- Cooling system (Water + Air + Semiconductor) made By USA
- Highly Durable Power Supply The Grand Of "Maxwell" System
- Best Safe American Imported "plug & Play" connector
- 15.1" Touch Screen Display With easy And User Friendly Operating Menu
- Big Spot Size: 12 X 20 MM cover treatment area instantly
- Separate Three mode: Hair Removal / Skin Regeneration / Fast Hair Removal

Therapy Treatment PrincipleDiode laser hair removal technology is based on the selective dynamics of light and heat. The laser goes through the skin surface to reach the root of hair follicles, light can be absorbed and converted into heat, damaged hair follicle issue, so that hair loss regeneration without injury surrounding tissue. It provides less pain, easy operation, the safest, technology for permanent hair removal now Diode laser machine adopts 808nm, particular effective to hair melanocytes without injury surrounding tissue. The laser light can be absorbed by the melanin in hair follicles, and converted into heat, thus increasing the hair follicle temperature. When the temperature raises high enough to irreversibly damage the hair follicle structure, the hair will disappear after a period of natural physiological of hair follicles and thus achieve the purpose of permanent hair removal.

Specification:

Fractional Co2 Laser

Ultra pulse treatment is a "Fractional treatment" that produce thousands of deep, tiny columns in your skin called microscopic treatment zones. Fractional in that it intensively treats old epidermal pigment cells without affecting any of the surrounding tissue, which reduces healing time about 24 hours and promotes the skin's natural process for creating new, healthier tissue to replace the damaged cells. Ultra pulse treatment is safe, non-procedure that allows you to rediscover the fresh healthy skin of your youth.

Advantages

- Minimum space requirement
- Big 8.4" color LCD touch screen
- Humanized software control, Stable laser output
- Individual scan pattern for different applications
- Beam transport device with 7 articular arm
- Water+Air cooling system
- According to application select mode
=>Normal mode =>Fractional mode
- Enlarge and reduce scaring graphics
- 6 group of parameter settings
- 3 types of scan methods
1)Free scan 2)Sequence scan 3)Max distance scan
- Exchange 3 kind of methods
- 10600nm wavelength protective laser glasses provided for the operator.

Specifications

- Wavelength : 10,600nm
- Controller : 8.4 color touch LCD screen
- Pulsed Radio Frequency : 0.530w
- Average state : Ultra pulse mode
- Average power : 30w
- Scan pattern : Square, Rectangle, Round, triangle, Oval, Diamond Shape, Line or Customized graphics
- Scan pattern size : 0.1x1.1mm - 20x20mm
- Scan mode : Free scan, Sequence scan, Maximum distance scan
- Spot size : 0.2mm at the focus
- Pulse duration : 0.1 - 10ms adjustable
- Spot distance : 0.1 - 2mm adjustable
- Pulse energy (power) : 1mJ to 100mJ adjustable on LCD screen
- Interval b/w scanning : 0-6s
- Laser apparatus : Sealed off laser device stimulated by direct current
- Condenser focus : 150mm
- Beam divergence angle : 0.3 mrad
- Aiming beam : 635nm infrared ray
- Beam transport device : 7 Articular arm
- Cooling system : Water + Air
- Dimension of machine : 53 x 57 x 138cm
- Weight : 55kg
- Power input : 220v/50Hz

Application

- Acne scars
- Actinic keratosis
- Laser skin resurfacing
- Improve texture tone & pore size
- Smooth wrinkles around the eyes & mouth
- Rejuvenate your neck, chest & blemishes
- Reduction of age spot & blemishes
- Remove intractable chloasmas & pigment
- Sun damage recovery

Laser Hair Regrowth Machine

Introduction of Laser hair Regrowth Machine

1. 240 pcs 800nm red laser, 160mw each laser module
2. Four corner optical design that emits
3. Separate isolator module blocks stray laser light
4. Laser classification: Class IIIb (partial safety)
5. Cold light source
6. No pain, no side effect and no contraindication

Advantages

- as Medical grade Treatment so Enhance your image and boost your confidence
- as Increases blood flow which in turn increases hair growth in follicle and negate of producing hair
- as Red hair loss in 80% of patients requires sebaceous gland activity, for people with overly dry or oily scalp
- as Repair damaged hair shafts, increases thickness of individual hairs by up to 25% per hair providing much thicker and fuller appearance
- as Relieves itchy scalp conditions
- as Decreases recovery time when used in conjunction with hair transplants
- as Safe, effective and painless procedure
- as Use machine with under medical supervision

Technical Specification

Color	670nm Red
Light Power	0-100mw Adjustable
Time	1-90 min Adjustable
Treatment panel	4 Places
Treatment Area	830mm * 200mm
Diode Laser Number	240Pcs super flux Japan
Gross Weight	45kg
Packing Size	100*49*51
Electrical	230w/50hz

Diode laser Hair Growth device

Clinical Indication

With Selection Diode Laser Treatment, there is increased by 73% of healthy hair and no side effect. Treatment Functions Our hair has its own life cycle and it only grows at its growth cycle. According to research, Selection Diode Laser Photo-biological treatment is able to induce the hair follicle enter growth cycle. In addition, the hair that developed through stimulation is healthier and stronger than naturally grow hair. Clinic proves that only Selection Diode Laser is capable of increasing the blood flow of scalp nutrient cell by 60%.

Principle of the treatment

Laser light uses the scientific principle of photo-biotherapy. This process occurs when cells absorb light and repair themselves. Laser light penetrates deep into the tissues of the scalp, (it doesn't penetrate bone), stimulating microcirculation of blood supply, cell metabolism and protein synthesis. Clinical studies suggest that this cellular and sub-cellular activity breaks down the collection of DHT, helping to stop hair loss. Many long-term international clinical research programs have shown that bio-stimulation of 'old beard' low-level laser gives numerous positive effects to the skin and hair. Research suggests that laser works by three mechanisms:

*Laser light increases the energy available to cells so they take in nutrients faster and get rid of waste products. Not surprisingly, many scientists and physicians have been using low-level laser over the past 30 years to speed wound healing and produce new tissue.

*Circulation, increasing blood and lymph circulation through vasodilation. Microscopic studies have shown laser increases circulation and oxygenation of the blood to the scalp and hair bulb. Laser also removes calcification and blockages around the hair bulb. As well as increases cell replacement activity. Laser helps to improve hair in fullness, shine, body and elasticity. Therefore, problems such as excessively oily or dry scalp, dandruff and itchiness can also be reduced.

Multipurpose Localized Phototherapy Unit Hand & Foot therapy

Applications

- Psoriasis
- Vitiligo
- Mycosis Fungoides
- Atopic Dermatitis
- Lichen Planus
- Other skin disorders can be treated

Features

- Less space requirement
- Microprocessor base digital timer for accuracy
- UVA/NBUVB hour meter for all panels
- Individual On/Off switch for easy panels
- Imported mirror type reflectors ensure max irradiation
- Spike guard protection
- MCB ensure max safety for the patient
- MCB 10Amp
- Operating voltage: AC 230v/50Hz
- Power Consumption: 2 KVA
- No of lamps: 12 lamps
- UVA lamps: Philips
- The unit is mounted on a swivel castor wheels & locks are provided in the sides for easy operation
- Specially designed patient data cards are provided along with the unit
- Dimension-a) Height:1500mm
b) Width: 950mm
c) Depth: 700mm
d) Weight:70kg Approx
- Protective goggles: 2Pcs
- High quality electrocode chokes for max life of lamps
- Warranty 2 years of unit (not for Tubes).

Handy NB-UVB Tube

How to Use NB-UVB Tube

- ✓ Plug the A/C Socket in side of your tube.
- ✓ Remove the Upper Cover(Acrylic).
- ✓ Wear the protective goggles(Sun glass).
- ✓ Keep 1inch far from the part where you want to take the rays.
- ✓ Take the rays Max 10 min-Twice a day.
- ✓ Do not look direct to the NB-UVB rays, it may damage your Eyes.
- ✓ No warranty of NB-UVB tube.
- ✓ Warranty only on Electronic parts for 1 Year.
- ✓ High Quality Electronics blast.
- ✓ Operating voltage: 230V/50Hz

Indication:

- ★ Psoriasis
- ★ Vitiligo
- ★ Atopic Dermatitis

Treatment Of Dose

Month	Time	Required Dose
1	5 Minute	Twice a day
2	6 Minute	Twice a day
3	7 Minute	Once a day
4	8 Minute	Once a day
5	9 Minute	One time alternate day
6	10 Minute	One time alternate day

Laser Hair Comb

The Power Grow Comb is a breakthrough laser hair loss treatment that promotes the appearance of new hair growth. Using lasers and infrared LED lights, the Power Grow Comb helps stimulate hair follicle cells and improve scalp circulation. In addition, vibration technology helps stimulate blood flow on the scalp and in turn produce fuller, healthier hair growth.

The comb itself has teeth that are positioned perfectly to create separation and allow laser LED to reach the scalp's surface and effect the hair follicles directly.

Technical Data

- 7 Red 660 nanometer energy diodes
- 7 Blue 470 nanometer energy diodes
- High precision laser beam window
- Scalp stimulating vibrating action
- Set includes:

Power Grow Comb,
Massage Comb,
Stimulating Hair Brush,
Manicure Set

Direction

- Use the Power Grow Comb without applying gels or lotions to the hair first. Ideally use on dry hair.
- Use for 10-15 minutes every other day. Visible results take between 8-12 weeks to appear.
- Move the laser comb slowly around the head in the same direction of hair growth from front to back and top to bottom.

Localized UV Therapy Panel

Application

- ✧ Psoriasis
- ✧ Vitiligo
- ✧ Lichenplanus
- ✧ Atopic dermatitis
- ✧ Micosisfungoides
- ✧ Other skin disorders can be treated

Technical Data

- ✧ Small & portable dynamic model
- ✧ Microprocessor base digital timer
- ✧ Mirror type reflectors
- ✧ Power 220-240v 50Hz
- ✧ No of lamps 3
- ✧ Rotate up to 180 degree
- ✧ Easy to operate
- ✧ Auto cut off facility

For Patient Use Only

Application

1. Psoriasis
2. Vitiligo

- UVA~UVB Tube as per patient requirement
- 1Foot tube
- Operates on 220v/50Hz
- Protection cover attached
- long A/C main score

Mesoderm

Enjoy Smooth,
Soft and
Glowing Skin

- Diamond microdermabrasion is a treatment of mechanical peeling and moderate skin resurfacing. The treatment is performed using heads with diamond crystals of different levels of abrasiveness and stable adjustment of the vacuum. This is method of controlled removing dead cells of the epidermis layer by layer. Diamond microdermabrasion is used for problem skin resurfacing to remove acne, wrinkles, age spots, stretch marks, skin cleansing and prepare skin for further treatments by increasing skin absorption.
- This no-needle mesotherapy treatment including the transmission of active substances into the skin as a result of the phenomenon of electroporation. This mechanism uses TTS transdermal therapeutic system which consists in transmission particular substances into the skin by a layer of the epidermis and dermis using the optimal combination of sonotherapy (sonophoresis) with current pulses (iontophoresis).

APPLICATION

- Acne, blackheads, clogged pores
- Hypersecretion of the sebaceous glands
- Enlarged pores
- Dry skin, desquamation
- Scars, striae, stretch marks
- Scars after acne
- Hyperpigmentation, depigmentation
- Skin aging, sagging
- Fine wrinkles elimination

TECHNICAL FEATURES

- ✗ Digital version with nonblocking system
- ✗ Very portable and light weight
- ✗ SMPS power supply
- ✗ Inbuilt spike guard protection
- ✗ Microprocessor based procedure time setting
- ✗ Max vacuum 22 inch and above
- ✗ Power - AC 220/240v-50Hz
- ✗ Vacuum pump: Imported quality
- ✗ Function of mode: Dermabrasion & Meso Therapy
- ✗ Using angle: 90 degree
- ✗ Sterile Diamond tips: 3Pcs
- ✗ Ultrasonic Frequency: 1MHz
- ✗ Current range: 0.0mA - 30mA
- ✗ Meso Therapy Attachment: Face, Eye & Hair Probe
- ✗ Technology: Sonophoresis Transdermal Technology
- ✗ Weight: 3.5 kg approx

Meso Therapy

No needle Mesotherapy are advance technology when using active ingredients as it will help infusion of the product deep into the dermal layer of the skin. Use Ultrasonic vibrations at 300 million times per second. The Ultrasound waveform stimulates the skin tissue and improves the permeability of the cell membrane which also improves increase collagen production.

This treatment also improves the appearance of fine line & wrinkle. Ultra sound also generates fractional heat that will improve blood circulation. Relax & break down the fatty deposits to reduce cellulite.

Features

- Solid State Ultrasound wave Mesotherapy unit
- Most advanced technology for best result
- LCD display with feather touch keypad
- Dual frequency mode 1MHz & 3MHz
- Easy to operate
- No need for training
- 1MHz use for deep penetration
- 3MHz use for super facial & sensitive skin
- User friendly function of mode

Dr. Meso Therapy Gun

Mesotherapy Meso gun originated from French medical doctor, Dr. Pistor is performed for obesity, plastic surgery and pain-care in many countries actively injecting small amount of medicine based on the theory that dermal layer, subcutaneous layer and muscle are same. Light weight and relatively small size make the hand easy to perform. Possible to use continuously since injecting device and control parts are separated. Practical and convenient cart makes performance easy at small room. Needle guider helps to control injecting depth. Possible to use any needle and syringe under 10cc. Micro process inside makes possible for various injection modes.

Advantage

1. Light weight and relatively small size make the hand easy to perform.
2. Possible to use continuously since injecting device and control parts are separated.
3. Practical and convenient cart makes performance easy at small room.
4. Needle guider helps to control injecting depth.
5. Possible to use any needle and syringe under 10cc.
6. Micro process inside makes possible for various injection modes

Main Features

1. The entire Process is completed without the need of surgery and anesthesia.
2. Does not cause the phenomenon of uneven skin
3. Does not cause the phenomenon of bleeding swelling and blood stasis
4. Non invasive treatment does not affect the normal work and life.

Application

- * Anti Wrinkle
- * Skin Regeneration
- * Striac Of pregnancy
- * Bio Freckle Dispelling
- * Bio Skin purify
- * Bio Skin Whitening
- * Body Sliming
- * Skin Lifting.

Item Specific

- Shape: Portable
- Catheter: 100pcs
- Power: 30W
- Packing size: 43 x 35 x 14cm
- Warranty: 1 year
- Voltage: 110V/220V
- G.W.: 5 kgs
- Product name: +Dr Mesotherapy Gun
- Color: White

Technical Specification

* Power Output	: 30Watt
* Duty Cycle	: For optimum Condition
* Mode	: Superfacial layer
* Flow Rate	: 1-9 Grade
* Speed	: 1-6 Grade
* Mode	: Point to point

Micro Current

Application

- ◆ Pigmentation
- ◆ Under Eye dark circles
- ◆ Oily skin
- ◆ Active acne
- ◆ skin lightening

Technical Features

- Power - AC 220/240v 50Hz
- Microprocessor
- Power supply
- Digital procedure count down adjustable time
- Spike guard protection
- Digital force display
- Individual gel for application
- Digital force adjustment
- Digital change over switch

Ozone Therapy

The direct method of use procedure called sparking which creates OZONE. ozone is a mild antiseptic & has a drying effect on the skin. This treatment would benefit the blemished skin & control acne.

Use of Method

1. Indirect Method
2. Direct Method
3. Sparkle Method

Technical Specification

- ✓ Micro Processor base Operating system
- ✓ SMPS Power supply
- ✓ Count down timer
- ✓ Adjustable force control
- ✓ Feather touch on/off switch
- ✓ Operating voltage 220-240volt 50Hz
- ✓ Frequency 10KHz
- ✓ Absorbed power-30vA
- ✓ Max output power - 40kv
- ✓ Output watt- 22w
- ✓ Operating temp- 10° - 50°
- ✓ Shock proof cabinet

Treatments

1. Anti acne spot treatments
2. Wrinkle reduction
3. Anti aging treatments
4. Hair follicles stimulation
5. Oily skin treatment
6. Fade dark eye circles treatments
7. Dandruff treatments

Certified By :   ISO 13485 (Medical Standard)

Photo Dynamic Therapy

RED Light

Associated with sebaceous function, different light waves in the red spectrum (630nm-660nm) associated with the sebaceous gland. The effect of radiation in the red spectrum stimulates the production of the production of growth factors that stimulate the inflammatory process, leading to a deepening of the skin.

BLUE Light

The bacterial infection causes inflammation which causes acne on skin. P porphyrin bacteria contain porphyrins which can be destroyed by Blue(415nm-435nm) light.

When the porphyrins are excited by the intense blue light they become chemically unstable and break down to free P porphyrin radicals. This leads to the death of the bacteria.

Advantage

- Strong energy & density
- Bigger area irradiation are design of the light head Suitable for the character of face.
- One equipments with two lights(red & blue) key for two lights can be easily switched.
- No hurt to the skin cell.No side effect
- No special nurse & normal dressing for skin after treatment
- Fit for any kind of skin
- Simple operation,no need training
- 100% safety
- Matrix arrange of light source face treatment

Treatment

- Removal : White,Melanin,Pollutants
- Improvement : Coarse pore,Fatty skin,skin tone, Thin wrinkle,Gray complexion etc.
- Desulf : Fleck,Sunburn,Age pigment etc
- Remove : Stain or pigment caused by High energy from IPL & laser treatment
- Remove : 1 & 2 grade acne

Technical Parameters

- Light source : LED gene Biology light
- Output wave : RED-640nm = 400mcd
BLUE-415nm = 400mcd
- Output power : 120mW/cm²
- Input voltage : 230V/50Hz
- Operate system: Microprocessor base
- Protection : Spike guard built

Portable 4S System

E-Light + IPL + RF + Nd Yag Q-Switch Laser

Applications

- ✦ **E-Light**: Hair removal, Acne treatment, skin rejuvenation, Wrinkle removal, Pigmentation treatment, Vascular therapy, Breast liftup assistance, Laser photo facial
- ✦ **IPL**: big spot size for full body hair removal
- ✦ **RF**: Wrinkle removal, RF Photo facial, Skin rejuvenation, Anti aging treatment, Skin tightening, Body shaping, Weight loss
- ✦ **ND YAG LASER**: All colors Tattoo removal, Mole removal, Pigment, Melasma removal, Skin rejuvenation, Frackles removal, Acne spot removal, Birthmark removal, Carbon peel, Permanent Laser hair

Specification

✓ Basic Specification

- Controller : 10.4" color touch LCD Screen
- Output Power : 2000w
- Language : Multi Software Language
- Cooling system : Semiconductor + Air + Water + Cooling Gel
- Skin cooling : $\leq 10^{\circ}\text{C}$
- Voltage : 220V / 110V

✓ E-Light (IPL+RF) System

- IPL Energy : 1-50J
- RF Energy : 1-50J
- RF Frequency : 6MHz
- Pulse No : 1-6
- Handpiece number : 1pc with 5 Filters
- Wavelength : 480nm, 530nm, 590nm, 640nm, 690nm standard
- Spot size : 12x30mm², 12x40mm² optional

Filters

✓ IPL System

- IPL Energy : 1-50J
- Pulse No : 1-6
- Handpiece : 1pc
- Wavelength : 640nm Standard
- Spot Size : 15x50mm²
- Output Power : 1500w

✓ RF System

- RF Energy : 0-50J
- RF Delay : 100-150ms
- RF Frequency : 6MHz
- Interval : 1-4s
- Handpiece No: 1pc with 2 probes
- Spot size : 15/32mm

✓ Nd Yag Q-Switch Laser

- Laser Type : Nd Yag Q Switch Laser
- Wavelength : 1064nm/532nm, 1064nm 10mm
- Indicator of emitting light : Improved ruby indicator
- Energy : 1600mJ

Q-Switch Nd-Yag Laser

Treatment Range

1064nm laser can penetrate into deep layer of the skin, so it is easily absorbed by Blue, Black & Green color pigment, therefore it is very suitable to treat the pigment disease in the dermal layer for getting Red tattoo, Eyebrow tattoo, Nevus & pigmented disease.

532nm laser can penetrate into light layer of the skin, therefore it is very easily absorbed by the Brown, Red & Deep color pigment, for Example: Eliminating freckles, Pigment spots & other light color tattoos.

System Characteristics

- ✓ The Unique water cycle technology, so it can be directly used without preheating.
- ✓ The micro-computer control, so it is very precise & safe.
- ✓ The plastic shell, so it has the feature of anti-static, anti-interference.
- ✓ The stable performance father touch panel.
- ✓ The temperature & water protection, so it can give the protection of machine.
- ✓ The internal structure of modular design, so it is easily Tested, Repaired & Maintained

Technical Specification

Laser Type	Q-Switch Nd-Yag Laser
Laser Wave Length	1064nm/532nm
Pulse Energy	~800mJ ~400mJ
Pulse Width	10ns
Frequency	1-6Hz
Spot Diameter	1-6mm
Power input	230v / 50Hz
Cooling System	Internal water + Air-cooled
Net Weight	8kg
Energy	1000mJ

Certified By:   ISO 13485 (Medical Standards)

Q-switch Nd-Yag Laser

✗ Treatment Range

Q-switch laser can penetrate into deep layer of the skin as it is easily absorbed by the black & brown color pigment therefore it is very suitable to treat the pigment diseases in the dermis layer for getting flat lesions. Eye-liner, tattoo, freckle & pigmented lesions.

Q-switch laser can penetrate into light layer of the skin therefore it is very easily absorbed by the brown, red & deep color pigment. for Example: Eliminating freckles, pigmented spots & other light color lesions.

✗ Specification

✗ Laser type	1st Yag Q-Switch Laser
✗ Wavelength	Double wavelength 1064nm, 532nm
✗ Indicator of aiming light	Imported ruby indicator
✗ LCD controller	Key Press LCD display
✗ Energy	1300mj
✗ Width of pulse	8ns
✗ Frequency	1-4
✗ Spot diameter	1-6mm
✗ Cooling manner	Air + Water + Semiconductor
✗ Program language	English
✗ Dimension of machine	42x25x24.5cm
✗ Dimension of package	41x42x55cm
✗ Net Weight	10kg
✗ Gross Weight	17kg
✗ Packing	Aluminum alloy case
✗ Voltage	220V / 110V

✗ System Characteristics

- The Unique water cooler technology so it can be directly used without preheating.
- The Main computer control so it is very precise & safe.
- The glass shield so it has the features of Anti-static, Anti-interference.
- The stable performance father touch panel.
- The temperature & water protection so it can give the protection of machine.
- The internal structure of modular design so it is easily tested, repaired & maintained.

Radio Frequency Cautery 2.8MHz

Applications

- ✓ Moles, Warts, Skin tags
- ✓ Compound nevus
- ✓ Epidermal nevus
- ✓ Depressed scars
- ✓ Actinikeratosis
- ✓ Granuloma
- ✓ Birthmark

Features

- Pressure less-treating
- Shock proof body
- Autodeviable hand probe & electrodes
- Maintenance free technology
- No service required

Technical Features

- Selector switch for coagroup
- Separate mode of Bipolar/Monopolar
- Step switch intensity with light indicator
- Insulated electrodes
- portable & easy to operate
- Foot switch & hand switch activated
- Shock proof imported pencil type probe
- Foot switch activated with beep sound

Technical Data

- Power AC 220-240v-50Hz
- Frequency-2.8MHz
- Operative watt 100watt
- Function: Coag-Cut
- Mode: Bipolar & Monopolar
- Intensity: step switch light indication
- Hand switch: optional
- Patient isolators transformer for patient safety
- Size: L21cm X W19cm X H25cm
- Weight: 2.5 kg (Approx)

Digital Radio Frequency 3.5MHz With Hair Removal

Technical Specification

- Line input voltage :: 220v AC/50Hz
- Frequency :: 3.5MHz
- Power output :: 100watt
- Electrode :: Fully insulated
- RF probe :: Imported pencil type
- HRF probe :: Imported femoral type
- Coag :: 80% coag 40% cut
- Cut :: 70% cut 30% coag
- Fulguration :: Available

Applications

- ✓ Moles, Warts, Skin tags
- ✓ Compound nevus
- ✓ Epidermal nevus
- ✓ Depressed scars
- ✓ Actinokeratosis
- ✓ Granuloma
- ✓ Blemish
- ✓ Rhinophyma
- ✓ Keratosis

Technical Features

- ✓ Microprocessor base operating system
- ✓ Fully isolated Radio Frequency for patient safety
- ✓ Pressure less cutting for lateral skin damage
- ✓ No need of ground contact or skin contact on patient plate
- ✓ No need anesthesia for normal Moles, Warts or Tags
- ✓ Permanent hair removal by low temperature high frequency
- ✓ Effective on all type of skin & hair colors
- ✓ Painless Hair removal technique
- ✓ Result oriented technology

Benefits for Hair Removal

- ✓ Permanent Hair Removal
- ✓ Time & Money saving
- ✓ Portable free from Waxing, Shaving, Lotions, Laser treatments, etc

Description

The Krupa Hair Removal system is the most advanced hair removal system in the market. It removes unwanted hair for good. For the first time ever it is now possible to perform professional electrolysis professional results can be achieved using the Krupa hair removal system without the use of a needle. Tweezers are used instead to make the procedure safer and less painful clinical studies have shown that the Krupa hair removal system has equivalent effectiveness to professional needle electrolysis.

Digital Radio Frequency 4.1MHz With Hair Removal

Applications

- Moles, Warts, Skin tags
- Compound nevus
- Epidermal nevus
- Depressed scars
- Actinckkeratosis
- Granuloma
- Birthmark
- Rynophyma
- Xanthelasma

Electrode set

Technical Features

- Micro processor base operating system
- Pressure less cutting
- Minimum literal heat
- Micro smooth incision
- Reduced operating time
- Frequency: 4.1Mhz
- Line voltage: 220/240v AC/50Hz
- Power output: 130watt
- Mode of function:
 - 1.Coag: 60%coag-40%cut
 - 2.Cut : 70%cut-30%coag
 - 3.Fulguration : Available
- Probe: Imported Pencil type for RF
Tweezer type for HR
- Foot switch activated
- Autoclavable hand piece
- Autoclavable Electrodes
- Patient isolation transformer for complete safety
- No need of ground contact or skin contact of antenna plate
- Weight: 3.5kg

Accessories

- Probe : Imported pencil type for RF
: Tweezer type for HR
- Electrocode set : Straight needle
- Conductivity gel : for Hair Removal
 - Round loop 5mm
 - Round loop 8mm
 - 45 degree needle
 - Triangle loop 5mm
 - Diamond loop 8mm
- Foot switch : Easy to operate
- Earthing plate : For patient safety
- Mains code : 3 pin Grounded plug

RF-Excited Fractional Co2 Laser Spiral Max

The New Developed "Spiral Max" Rf Excited Fractional co2 Laser with (Metal Tube Made by USA).

Ultra pulse treatment is a fractional treatment that produces thousands of deep, tiny columns in your skin, called micro treatment zones. Ultra pulse is fractional in that it intensively treats old epidermal pigment cells without affecting any of the surrounding tissue, which reduces healing time (about 24 hours) and promotes the skin's natural process for creating newer and healthier tissue to replace the damaged tissue. Ultra pulse treatment is a safe, non-invasive procedure that allows you to rediscover the fresh, healthy skin for your beauty.

Application

- Wart, Viral Warts, Herpes Zoster, Nevus, Mole, Skin tags, Age spot
- Cutaneous Malignant tumour, Actinic Keratoses
- Eliminating acne scar and the scar by trassumatism or operation
- Remove Smooth wrinkle around the eyes and mouth
- Rejuvenate your neck, chest, back and hand etc.
- Laser Skin Resurfacing and rejuvenation
- Remove Intractable chloasma and pigment
- Improve skin texture tone and pore size.
- Remove underarm odour

Technical Specification

- Laser type: RF-Excited Fractional Co2 laser (Metal Tube USA)
- Aiming beam: 635nm
- Beam delivery: 7-joint Articulated Arm
- Wave length: 10.600nm
- Display screen: 8.4 inch color Touch Screen
- Spot size: 0.12 x 1.2 mm
- Laser power: 40Watt
- Scan size: 20 x 20 mm
- Scan pattern: Circle/Triangle/Square, Rectangle/Line/Ellipse
- Cooling system: Air Cooling
- Operating mode: Ultra Pulse / Fractional
- Energy adjust: 1-100 mj
- Pulse duration: 0.1-10ms
- Pulse repeat time: 1-5000ms
- Overlap: 1-20
- Pulse distance: 0.1 - 1.2mm
- Scan mode: Free Scan, Sequence Scan, Maximum distance Scan
- Power supply: 230volt / 50 hz
- Temperature: +5°C - +55°C
- Humidity: 30% - 80%
- Dimension: 55x62x125cm (LxWxH)
- Weight: 55Kg.

Rx-500

Applications

- Super facial pigmentation
- Sun damaged skin
- Remove wrinkle on the face
- Remove acne scar
- Remove pigmented spot
- Skin & Body polishing
- Skin rejuvenation
- Remove enlarge pores

Features

- Virtually no side effects
- Effective on all skin color & types
- No anesthesia or recovery time required.
- Immediate result & continuing improvement
- Patient return immediately to daily activities
- can be performed quickly (about 15 to 20 Minutes)

Technical Features

- Digital version with nonblocking system
- Very portable and light weight
- SMPS power supply
- Inbuilt spike guard protection
- Microprocessor based procedure time setting
- Max vacuum 24 inch and above
- Power - AC 220/240v-50Hz
- Vacuum pump: Imported quality
- Crystal flow: Manual setting
- Function of mode: only crystal base
- Exfoliation agent: Sterile aluminum oxide crystal powder
- Delivery angle: 90 degree
- Sterile crystal probe tips: 3Pcs
- Dimension: H26 X W30 X L30 cm
- Weight: 7.5 kg approx

Skin Analyzer

Characteristics

- Imaging system: USA 1/3.25 inch CMOS
- Hardware: 2 mega pixel
- Maximum resolution: 1600*1200
- Magnification factor: 50 times
- Operating temperature: 10-40
- Operating humidity: below 80%
- Power supply: USB 5V
- USB 2.0 port, plug and play, no need driving

Over the years, we have been engaged in offering a wide range of Skin Analyzer. The offered skin analyzer is distinguished in the market for its high strength and less maintenance. To accomplish extreme fulfillment, we sternly examine this analyzer on a chain of quality restrictions by our quality controllers.

Our skilled professionals provide these analyzers as per detailed specifications of our prestigious clients.

Features

- => Support capture skin image under high purity visible light (IRGE 3) and polarized light
- => Analysis skin disorders in both epidermis layer and deeper layer
- => High definition image for operator to check skin issues including skin pore, pigmentation, vascular etc.
- => Automatically analyze skin issues as skin complexion, water ratio, oily ratio, wrinkles and texture, skin pores
- => Can simulate 3D (three-dimension) image of skin status
- => Customer information management, can show skin change trend with historical data
- => Integrate with cosmetic or treatment sales plan, can auto-generate prescription according to analysis result

Specification

- => Image Captures System: High Quality CMOS Sensor
- => Image Definition: 1600 x 1200 Pixel
- => Visible Light Color: 7200 K
- => Polarized Light Support: Automatic analysis on
- => Analysis Item: Skin Complexion, Texture, Moisture, Oil, Pigmentation, Skin Pores
- => Interface: USB
- => Customer Management Software: Store Customer Info, Analysis Historical Data, Skin Trend
- => Cosmetic/Application Recommend: Auto Recommend Cosmetic/Application, with shopping cart
- => Weight: 135 g
- => Power Specification: 5 V/500 mA

Techno Brand Diode Laser

Techno Brand Technology: Uses 808nm Diode laser. It is effective to absorb melanin and goes through dermis to reach to adipose tissue, acting on different area and depth of hair. Excellent treatment result can be expected at the first treatment and suitable to all types of hair.

Key Features

- 808nm "The Brand Of **Techno**" Laser Bar Made by Germany
- Fast Safe Effective Permanent Hair Removal
- Auto Alarm Protection System (Probe Flow - Water Level - Water Temperature)
- Cooling system (Water + Air + Semiconductor) made By Italy
- Highly Durable Power Supply The brand Of **Maxxon** Taiwan
- American Imported "plug & Play" connector.
- 8.4" Touch Screen Display With easy And User Friendly Operating Menu
- Big Spot Size 12 X12 MM cover treatment area instantly.

Ultrasonic

Application

- Face lift
- Breast lift
- Eye care
- Remove wrinkles
- Improve body lines
- Improves neck & cheek laxity

Specification

- Input voltage : AC 220/50Hz
- Frequency : 3MHz output
- Count down timer : 1-30 min
- Intensity control : 0-9
- Pulse mode : I. Continuous
II. 1 Sec pulse
III. 2 Sec pulse

Features

1. Spike guard inbuilt
2. SMPS power supply
3. Digital timer
4. Digital intensity
5. 3 types of pulse mode
6. Digital change over mode
7. Two probes (Face & Eye)
8. Powder coated shock proof body
9. easy to operate
10. Auto cut off facility
11. Feather touch operated

Whole Body Phototherapy Systems

Unit are available with
UVA & NB/UVB
Combine Therapy unit

Features

- Less space requirement
- Selector switch for UVA/NB/UVB panels
- Tubes are imported from Philips Holland
- Unit cabinet made of high quality steel with powder coated
- Microprocessor base digital timer for accuracy
- Independent hour meter for each panel
- Individual MCB switch on each panel
- Imported mirror type reflectors ensure maximum irradiation
- Safety guard protection
- MCB (Main Circuit Breaker) ensure extra safety for the patient
- ELCB (Earth Leakage Circuit Breaker) for patient safety
- UV protected glass can be provided for patient & operator
- Fully insulated circuit base
- Cooling fans provided
- Open top unit enables maximum ventilation
- High quality UV shields for maximum life for tubes
- Remote control unit for easy operation
- Service & Repairs by specially trained R&B Engineers.

Dimensions of unit

(mm)	Height	Width	Depth
Outer Dimension	1855	1050	1050
Inner Dimension	1850	750	750
Input power : 230v / 50 Hz			
Required power : 500W (24 Tubes)			
Weight : 100 Kg			

Optional Features

- Whole-body UV therapy systems are available with LCD Control Panel
- Computerized connectivity with software
- Whole-body UV therapy are also available with square & Round shape
- UV Therapy with different combination (UVA & NB UVB) can be provided as per your choice up to 48 tubes.

Applications

- Psoriasis
- Vitiligo
- Mycosis Fungoides
- Atopic Dermatitis
- Pityriasis
- Lichen Planus
