About Us

Being a professionally managed organization, we, Bonnafide Chemicals, boast of a team of highly qualified professionals and trained workforce. They are experienced enough to efficiently handle the bulk orders, even within the shortest possible lead time, strictly within the scheduled delivery time. This has lead us to build a strong relationship with the customers. We commenced our business operation in the year 2007, to provide end-to-end efficient solutions to our client's water & waste water treatment requirements, ranging from conventional clarification & filtration systems to different membrane based systems.

Apart from being engaged in Boiling Water Treatment, Cooling Water Treatment and Multifunctional Treatment Plants, we are also known as a renowned manufacturer, exporter, supplier, trading company, wholesaler/distributor and sevice provider of various industrial chemicals. Our product range includes Caustic Soda Flakes, Formic Acid, Oxalic Acid, Activated Carbon Filter, Biocide, DM Plant, Domestic Water and many more. Apart from manufacturing, we also provide after sale services to our clients. We provide complete technical support, right from installation to repair and maintenance of the plants and machines.
