About Us

Since 1982, AFP Manufacturing Co. Pvt. Ltd. has etched its legacy of delivering tasty Namkeens, snacks, and bakery products in India. From its humble beginning as Aggarwal Food Products, the company has emerged as one of the leading players in the market with the promise of offering both western as well as Indian snacks. Over the years, AFP has aligned itself with industry giants like PEPSICO, bringing in customers some of the most popular products on their shelves, which include Kurkure and Kurkure Namkeens. Over the years, consistent growth was due to AFP's unrelenting pursuit of quality and innovation and very strong ethical principles that have empowered AFP to forge into new markets and increase the products.

AFP manages different brands such as Aggarwal's, Baker's, and the rapidly growing MUNCHHONN. We have a vast network across the East, North East, and parts of North India. Our products are also being sold through the outlets belonging to the East Central Railways. The company is expanding the distribution network rapidly and is planning to spread across the country within a very short time.
