

Product Name : Toxishield DB - 25 MEG

Product Code : P0120

No.	Parameters	Unit	Specifications	Test Methods
1	Appearance		Clear Liquid	Determination of Appearance and Visual Colour (QTM0001)
2	Assay of Denatonium Benzoate	% w/w	24.5 to 25.5	Determination of Purity of Denatonium Benzoate (QTM0054)
3	pH of 3% w/v aq solution	% w/v	6.5 to 7.5	Determination of pH aqueous solution (QTM0012)
4	Refractive Index @27 Å°C	-	1.464 to 1.472	Determination of Refractive Index (QTM0006)
5	Specific Gravity	-	1.117 to 1.123	Determination of Specific Gravity (QTM0005)
6	Water Content / Moisture Content by KFR	% w/w	0.0 to 3	Determination of Moisture / Water Content By KFR (QTM0004)

Approved By

### Note

The above specifications may be changed depending on technical considerations. Customers are requested to refer to COAs before use. User is required to inspect and test goods received on their own to ascertain suitability of product before using it. Any defects or discrepancies should be brought to the attention of Nikita Transphase Adducts before use. No liability will be accepted once the goods are used.
